United Nations Development Programme

Project Document

Project Title: Gender Equality Global Program
Project Number:
Implementing Partner:
Start Date: march 2023 **End Date:** December 2025 **PAC Meeting date:** Virtual PAC 9 – 15 December 2022

Brief Description
The world faces unprecedented planetary and social crises driven by human actions, with overlapping impacts of the COVID-19 pandemic, accelerating climate emergency, and geopolitical conflicts. An international debt crisis may spur fiscal austerity measures that further undercut public services. Widening digital gender gaps and the concentration of power and knowledge in the digital economy could entrench discrimination and exclusion systemically for a new generation. The continued erosion of democracy and rise of authoritarian politics in many parts of the world has contributed to the pushback against gender equality. Development and other thought leaders, including many in feminist movements, have called for rethinking and rebalancing political, economic, social and environmental systems. UNDP is ready to stand at the vanguard of this call for a new direction, through its new Strategic Plan and the accompanying Gender Equality Strategy 2022-2025, viewing the current moment as a historic chance to open new doors. This Gender Equality Global Programme (GEGP) represents one of the key vehicles (although by no means exclusive) for the implementation of the Gender Equality Strategy. The GEGP echoes the ambition and core priorities presented in the Gender Equality Strategy and aims at helping governments shift systems and power structures that generate gender inequalities and women's disempowerment. The ambition of this Programme is to contribute to achieve the following three outcomes, which are interconnected: **1. Economies are inclusive and women economically empowered.** **2. Governance systems and States capabilities deliver for gender equality.** **3. A green transition is accelerated and contributes to gender equality.** A fourth outcome of the Programme is focused on the structural changes within UNDP that are required to enable the delivery of results of the first three outcomes, namely: **4. Organizational internal changes enable UNDP to deliver transformative results on gender equality.**

Contributing Outcome of the Strategic Plan: • Outcome 1: Structural transformation accelerated, particularly green, inclusive and digital transitions. Indicative Output(s) with gender marker[1]: **Outputs 1, 2, 3 and 4 are GEN3**

Total resources required:		36,034,000
Total resources allocated:		
	UNDP (GMI and other core):	6,584,000
	Donor: Republic of Korea	3,000,000
	In-Kind (other programs):	19,974,000
Unfunded:		6,476,000

Agreed by (signatures):

UNDP
DocuSigned by: Haoliang Xu 296F8CDE6F864D6...
Print Name: Haoliang Xu
Date: 23-Mar-2023

[1] The Gender Marker measures how much a project invests in gender equality and women's empowerment. Select one for each output: GEN3 (Gender equality as a principle objective); GEN2 (Gender equality as a significant objective); GEN1 (Limited contribution to gender equality); GEN0 (No contribution to gender quality)

I. Development Challenge

The world faces unprecedented planetary and social crises driven by human actions, with overlapping impacts of the COVID-19 pandemic, accelerating climate emergency, and geopolitical conflicts[2]. All these have a disproportionate impact on gender equality, and in particular on women due to deeply entrenched discrimination and unequal gendered power dynamics. During lock-down against COVID-19's spread, gender-based violence intensified. As women spend three times more hours on unpaid care work than men[3] (which amount to 2.2 billion full-time jobs annually), they bore the brunt of job losses, with their economic autonomy stifled and their poverty risk increased.[4] Further, an international debt crisis may spur fiscal austerity measures that further undercut public services. Widening digital gender gaps and the concentration of power and knowledge in the digital economy could entrench discrimination and exclusion systemically for a new generation.[5]

The continued erosion of democracy and rise of authoritarian politics in many parts of the world has contributed to the pushback against gender equality.[6] There has been also a stalling and reversal of two decades of gains in political participation; men still monopolize nearly three quarters of parliamentary seats globally.[7] Women continue to face a host of discriminatory laws and social norms, while human rights defenders continue to lose their lives.[8] Violence and discrimination against women on the basis on their sexual orientation, gender identity and sex characteristics are also subject to increased threats and discrimination, while homophobia, transphobia and violent misogyny continue to spread. As the erosion of international human rights standards persists with rising xenophobia and economic inequalities, the obstacles to progress are even greater for women who experience multiple forms of discrimination – including based on age, class, disability, race, ethnicity, sexual orientation and gender identity, age or migration status –. Gender inequality also takes a toll on men for example, rigid gender norms can compel risky behaviours resulting in violence, poor health and lower life expectancy.

Limited progress on climate change has also been impeded by gender inequality and vice versa. Women's greater dependence on but unequal access to and control over natural resources, public services and infrastructure mean that they are more affected by environmental degradation, climate change and natural disasters[9], while vastly under-represented in decision-making spheres[10].

Many paths to achieving gender equality have been defined and agreed by United Nations Member States. These include commitments in the Beijing Declaration and Platform for Action, 1995, and the Convention on the Elimination of All Forms of Discrimination against Women, as well as Security Council resolutions on Women, Peace and Security. Gender equality is an explicit goal of the 2030 Agenda for Sustainable Development, which further states that all goals and targets depend on gender equality and the empowerment of women.

However, the current global context reveals a mismatch between global commitments and slow, scattered and all-too-easily reversed progress. The overlapping crises has raised acute questions about why progress continues to lag in many places, for many people, for so long. Development and other thought leaders, including many in feminist movements, have called for rethinking and rebalancing political, economic, social and environmental systems.

UNDP is ready to stand at the vanguard of this call for a new direction, through its new Strategic Plan and the accompanying Gender Equality Strategy 2022-2025, viewing the current moment as a historic chance to open new doors. There are many calls to move beyond economies tied to gross domestic product (GDP) towards economies aligned with social and environmental goals. UNDP recognizes that more is achieved by pulling people in instead of leaving them out:

opportunities for new social contracts are emerging. It propels innovations such as on finance, which both accelerates progress on gender equality and tackles climate change.

This Gender Equality Global Programme (GEGP) represents one of the key vehicles (although by no means exclusive) for the implementation of the Gender Equality Strategy. The GEGP echoes the ambition and core priorities presented in the Gender Equality Strategy and aims at helping governments shift systems and power structures that generate gender inequalities and women's disempowerment.

II. Strategy

Vision of the Gender Equality Global Programme

The UNDP commitment to gender equality is integral to all efforts to expand people's choices, realize a just and sustainable world, and achieve the vision of the 2030 Agenda for Sustainable Development.[11] For these reasons, Gender Equality is one of six core Signature Solutions of the UNDP Strategic Plan, and an integral part of programming across the organization.

This Global Programme translates programmatically the commitment of UNDP Gender Equality Strategy 2022-2025 to help governments shift systems and power structures that generate gender inequalities and women's disempowerment. Evaluations and consultations have demonstrated that partners expect UNDP to elevate its role as convener and advocate as much as, if not more than, a programme provider. To accelerate and significantly scale up results, UNDP will help governments to place gender equality at the core of political, economic and environmental dialogues and decisions. This Global Programme is central to the effort and aims to equip all parts of the organisation to respond to the complex development challenges noted above. Its outcomes and outputs are directly mapped on to Strategic Plan outputs and indicators, and it will significantly contribute to – and enable key tools and systems to monitor – implementation of the Gender Equality Strategy.

The ambition of this Programme is to contribute to achieve the following three outcomes, which are interconnected:

4. Economies are inclusive and women economically empowered.
5. Governance systems and States capabilities deliver for gender equality.
6. A green transition is accelerated and contributes to gender equality.

A fourth outcome of the Programme is focused on the structural changes within UNDP that are required to enable the delivery of results of the first three outcomes, namely:

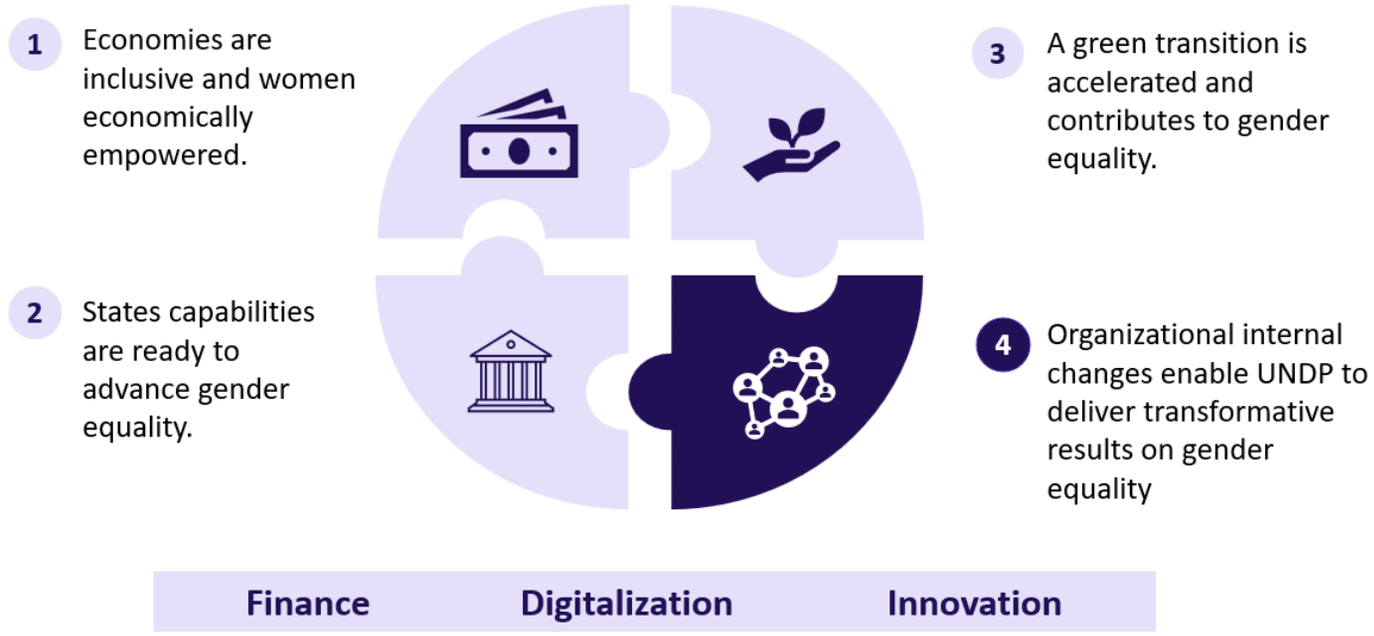

4. Organizational internal changes enable UNDP to deliver transformative results on gender equality.

UNDP recognizes that mechanical and compliance approaches will not suffice to address the scope of gender discrimination. This Programme establishes measures for UNDP's institutional transformation inspired by UNDP's Gender Equality Seal.

Figure 1. GEGP Four integrated outcomes

This Global Programme incorporates lessons from the previous Gender Equality Strategy

This Global Programme builds on the accomplishments and lessons of the previous strategy. It draws on insights from assessments evaluations, and United Nations system reports, as well as comprehensive consultations with leaders from government, leading thinkers, feminist practitioners, civil society, the private sector, the United Nations and UNDP staff worldwide.

More than 1,000 people contributed to the development of the new GES – providing an unparalleled body of insights and priorities that shaped the GES and therefore this GEGP. The Global Programme integrates the following key lessons:

- **Support countries:** Help countries shift power relationships and cut the deep roots of gender inequality. Interventions should consciously act on an understanding of how power relations and negative social norms shape institutions and access to and control over resources;
- **Analysis**: Be equipped with more sophisticated analysis to understand and develop strategies to address the complexities of gender inequality;
- **Integration:** Integrate gender expertise across teams and invest adequate resources to scale up impact;
- **Partnerships:** Partner with grassroots, feminist and women's organizations to shift policy. Connecting and opening dialogues between grass-roots groups and decision-makers has been among the most efficient means of influencing policy decisions; and
- **Finance:** Targeting the rechanneling of financial flows as a key mechanism to address the chronic underinvestment in gender equality.

Comparative Advantages

The Global Programme will leverage UNDP's advantages in its large presence in the field, scale and scope, and its mandate as an 'SDG integrator', which gives it the potential to strengthen our focus on the persistent structural causes of

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

inequalities across our portfolio. Using UNDP's unique position as a trusted partner, including in fragile and crisis settings, the Global Programme will facilitate the inclusion of integrated approaches and generate the needed knowledge, capacity, and evidence base to influence political, economic, and environmental policy dialogues to place gender equality as a core driver to achieve transformational change.

The Global Programme will leverage UNDP's Comparative Advantages on Gender Equality:

- Proven expertise on gender equality ratified by the high scores achieved though the UN SWAP and other assessments such as the Multilateral Organization Performance Assessment Network (MOPAN).
- Effective integration of gender equality across largest thematic portfolios, such as the Climate Promise: as of September 2022, 2021 95 per cent of 102 Climate Promise countries that have submitted their updated Nationally Determined Contributions have included more ambitious commitments to gender equality.
- Global leader producing evidence and data, and frontier knowledge with highly specialized expertise able to shape global dialogues on development linked to gender equality; e.g. the UNDP and UN Women COVID 19 Global Gender Response Tracker impact: the tracker dashboard – accessed by over 80,000 users –is the most popular platform on the Data Futures pages since 2020.
- Trusted partner uniquely positioned to open "uncomfortable" conversations at the highest levels of decision making with governments and engage in addressing backlashes on gender equality. Uniquely positioned to help bring civil society organizations and networks in decision making tables.
- Proven capacities to assess the changing political and socio-economic contexts and position the women's rights agenda in new environments from an evidence-based perspective; e.g. publication on investing in a temporary basic income (TBI) for women during COVID 19.
- More than 50 years of in-depth experience delivering large portfolios on poverty and inequality; governance; resilience; environment; and energy. Key player linking the humanitarian and development nexus and proven results supporting countries in crisis in building resilience.
- Global leader on organizational change, with more than 70% of UNDP country offices signed up for the UNDP Gender Equality Seal in 2022.
- Global leader in developing and implementing gender equality certification schemes across organizations and in their products and services, for public institutions, development organizations and the private sector.

UNDP has an added advantage of being at the forefront of thought leadership and data development, with its hub as the Data Futures platform, housing the UNDP-UNW COVID-19 Global Gender Response Tracker, and the UNDP Global Observatory of Gender-Responsive Public Policies enhancing UNDP's data capacity on gender equality, harnessing AI and the Gender Social Norms Index data.

UNDP has successfully embedded gender equality across UNDP's portfolios. This Global Programme will build on UNDP's advantages as an SDG integrator and its scale and scope, harnessing its potential to work across systems. The use of participatory portfolio reviews has supported the understanding of gender equality from a systems perspective to enable more effective delivery of Agenda 2030. This Global Programme aims at contributing to UNDP's ongoing portfolios and promoting a more systematic approach to gender equality in all of UNDP's development work for more impactful results.

Theory of Change

The Theory of Change for the Global Programme draws on the Development Impact Statement articulated in the UNDP Strategic Plan (2022-25):

"UNDP is driven by a vision in which all people have expanded choices for a fairer, sustainable and peaceful future in a world envisioned by Agenda 2030, with people and planet in balance."

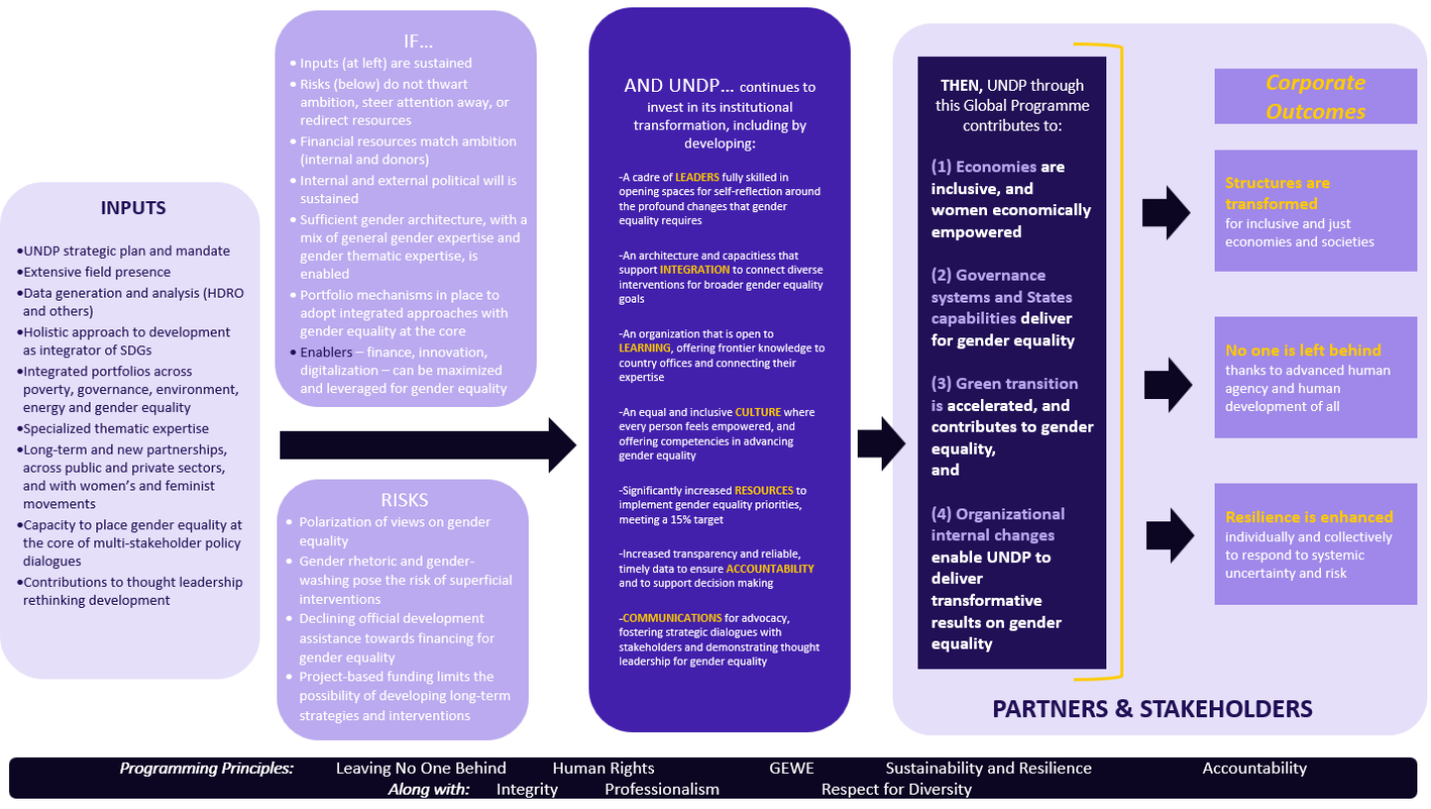

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

It starts with the assertion that gender equality is both a priority goal itself, not least fundamental to realizing the human rights of all, but also as an enabler of the whole of Agenda 2030. UNDP recognizes that gender equality is one of the most powerful development solutions there is – with its potential still yet to be fully tapped.

The Theory of Change acknowledges that structural change cannot happen by this Programme alone, nor UNDP alone, and it requires a long time. As such, this section presents the contribution of this Programme to a wider incremental change and vision. The Programme aims to support the realization of the 1995 Beijing Declaration and Platform for Action, which remains the global blueprint for achieving gender equality and women's empowerment. This Programme builds on the theory of change developed as part of the GES development process. As a primary engine for GES implementation, this Programme employs assumptions, risks, and enablers.

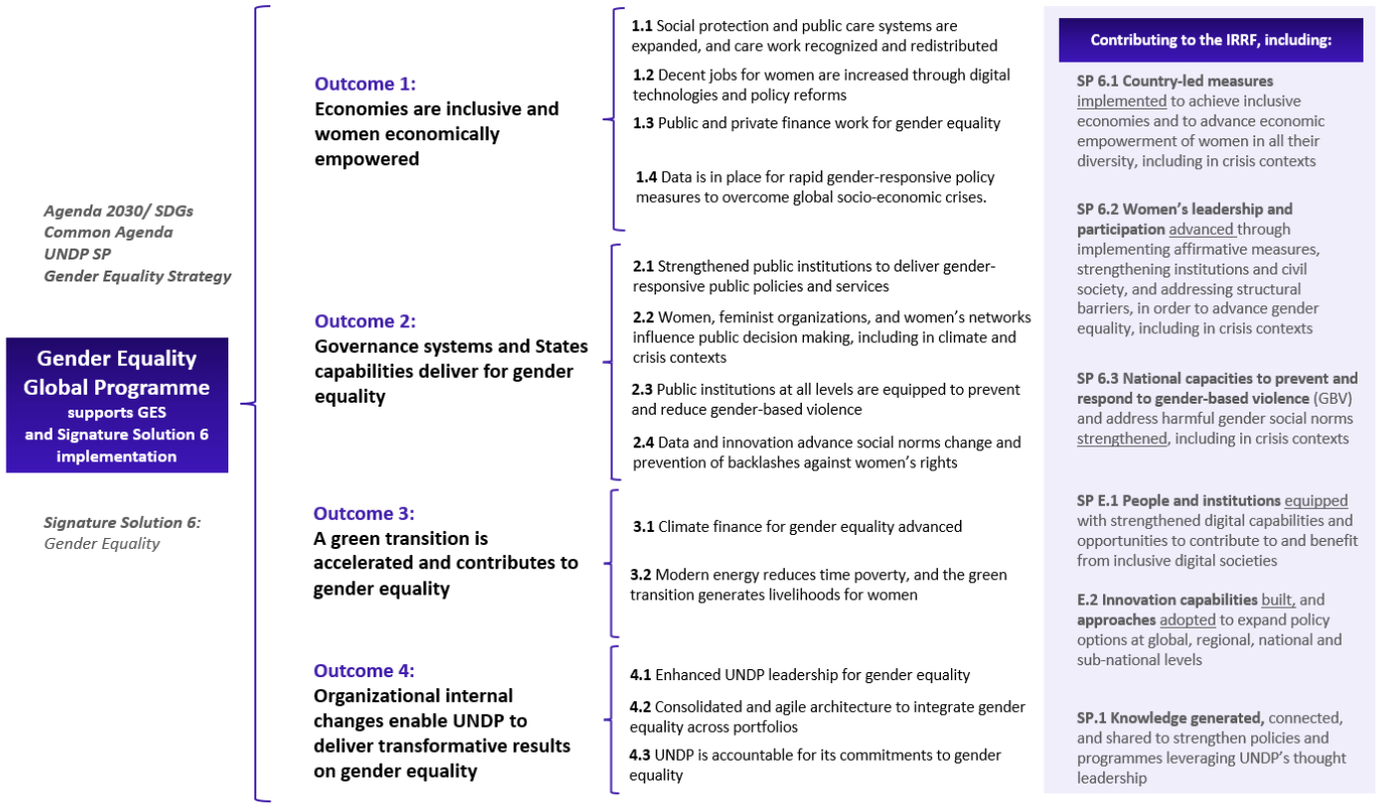

UNDP will work in partnership with others toward outputs that together contribute toward corporate outcomes. Its core logic can be understood by moving across the columns from left (primary inputs and enablers, including managing and overcoming risks, and driving insitutitonal development for gender equality,to right (outputs, toward outcomes), as visualized in the following:

Figure 2. Gender Equality Global Programme Theory of Change

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

Figure 3. Gender Equality Global Programme Logic

III. Results and Partnerships

Expected Results

This Global Programme aims to elevate UNDP's ambitions and use its value added to help shift the underlying systems and power structures that determine development and perpetuate gender inequalities. It recognizes that progress requires sustained action and investment over decades, and this Programme will strategically combine shorter-term incremental changes that reach individuals and communities with longer-term reductions in structural barriers that generate changes across social, economic and other systems. It further recognizes - and will intentionally pursue - connections between outcomes and integrated flagships that contribute across outcomes and outputs. The Programme will be implemented in close coordination with other UNDP portfolios and interventions and in partnership with other UN Agencies for bigger results. UNDP will leverage on its three enablers of sustainable finance, digitalization and strategic innovation to accelerate progress in its interventions. It will target the following four integrated outcomes to achieve gender equality:

Outcome 1: Economies are inclusive, and women economically empowered

UNDP Branded Flagships under this Outcome: 1) Global Policy Observatory for Gender Equality; 2) EQUANOMICS, 3) Care Georeferencing Tool; 4) STEM4ALL Platform; 5) Gender and Crisis Engagement Facility; 6) Digital Livelihood Facility (pipeline); 7) Business for Gender Equality Platform.

Ending poverty requires a major shift in economic thinking and a radical reconfiguration of economic power relations. UNDP will support policy makers in developing transformative fiscal, social and economic policies for gender equality and women's economic empowerment.

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

This outcome contributes to Signature Solutions 1, 6 and others, and the expected results by 2025 are:

- ✓ **10 countries** supported to expand social protection, care services and redistribute care work
- ✓ **500,000 women** gained access to and control over digital assets and appliances
- ✓ **Contribution to UNDP's target to help redirect USD 100 billion** towards gender equality through taxation systems, fiscal policies, debt instruments and private investments

Target countries: Interventions under this outcome will prioritize interested least developed countries (LDCs) and small island developing states (SIDS), including crisis countries, with large youth populations and limited investments in care and gender-responsive social protection but with high political interest. Middle-income countries (MICs) with low women's labour participation and with high political interest will also be eligible.

To achieve it, the following Outputs will be delivered, in close coordination with the Inclusive Growth team and the SDG Finance Hub:

Output 1.1 Social protection and public care systems are expanded, and care work recognized and redistributed.

UNDP aims to help expand care systems, recognizing it as a human right, human need, and collective responsibility, while at the same time changing social norms and regulations to shift responsibilities and the relationship between the paid and unpaid care work. Drawing on the Global Policy Network, the Global Programme will[12]:

- Launch the initiative EQUANOMICS that will bring together the expansion of care, fiscal policies for gender equality, and data generation.
- **Facilitate policy dialogues and accompany governments through the policy cycle** for inclusive planning, costing, budgeting and implementation of gender-responsive social protection programs and care systems.
- **Generate data and facilitate knowledge exchange and policy advice on gender-responsive social protection and care systems,** building on the UNDP-UN Women COVID-19 Global Gender Response Tracker data and catalogue of solutions, the Africa Care Index, cross-regional knowledge exchange, impact assessments, and other research and evidence.
- **Georeference the supply and demand for care** at national and local levels, scaling up UNDP's Georeferencing Tool;
- **Advocate and make available methodologies on adding care into national accounting systems**, including technical support on its implementation;
- **Support national and local governments and partners, to scale up existing and pilot new care and gender-responsive social protection measures** within the Out of Fragility Strategies, as well as crisis response and recovery plans.

Output 1.2 Decent jobs for women are increased through digital technologies and policy reforms.

Women's economic empowerment is a critical aspect of UNDP's mandate to end poverty and to achieve sustainable economic and human development. UNDP aims to help increase the activity rate and reduce informality levels of women in all their diversity and eliminate gender-based discrimination and occupational segregation in labor markets. Drawing on the Global Policy Network and on the "Future of Work" Offer spearheaded under the Poverty and Inequality Signature Solution, the Global Programme will:

- **Provide policy advice on the reduction of informality, increased activity rates of women** through economic, fiscal, and labor market policies, and the generation of employment for women in all their diversity in future-proof and non-

[12] The activities included here and throughout are indicative, focused on the overarching level of the programme's efforts, [and will be concretized pending resource availability and further projectizing.]

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

traditional sectors.

- **Reduce the labor market segregation in STEM intensive industries** by scaling up the STEM4ALL platform for gender equality in STEM and supporting the development of national digital strategies that expand women's access to and use of digital technologies and digital finance through a Digital Livelihood Facility.
- **Advance gender equality in the private sector** through the Business for Gender Equality Platform and the Gender Equality Seal for private institutions.
- **Gender-responsive conflict and crisis analysis** to inform economic recovery programmes that position women as agents of change in crisis and post crisis settings. The Gender and Crisis Engagement Facility will continue to support country, regional and global teams to drive forward transformational change in crisis contexts.

Output 1.3 Public and private finance unlocked for gender equality.

Gender equality is a precondition to advance human development and sustainable economies. However, a chronic mismatch between ambition and collective investment persists. UNDP is uniquely positioned to place gender equality at the core of fiscal policy dialogues with Ministries of Finance, Tax Offices and alike within the Integrated National Financing Frameworks and beyond. Drawing on the Global Policy Network, the Global Programme will:

- **Produce data and evidence** to facilitate decision-making in fiscal policies, including through the Global Policy Observatory for Gender Equality; and creating capacities to help countries to develop development finance assessments (DFAs) and Integrated National Financing Frameworks (INFFs) that contribute to gender equality.
- **Launch a high-visibility global roadmap** on gender-just tax systems for global advocacy and positioning, and to facilitate multi-stakeholder national policy dialogues.
- **Provide technical support to develop fiscal policies** that contribute to gender equality, including through gender-disaggregated fiscal incidence analysis, gender-responsive budgeting (GRB), GRB impact assessments, and gender impact assessments of tax systems.
- **Provide technical assistance in tax reforms**, including through the revision of tax laws, capacity development of tax officials, development of national gender equality taxation roadmaps, and development of M&E systems.
- **Scale up the Gender Equality Seal for the Public Sector for Ministries of Finance**, Planning, Tax Offices, Central Banks and aligned institutions interested.
- **Include a strong gender equality perspective in financial instruments**, particularly in SDG Investor Maps, insurance mechanisms and debt instruments, including SDG Bonds, Green Bonds, and other thematic bonds (bond taxonomies, revision of investment portfolios, capacity building and technical support to bond issuers, etc).

Output 1.4 Data is in place for rapid gender-responsive policy measures to overcome global socio-economic crises.

UNDP holds a unique position to support the development of evidence-based policies, with solid and well-established analytical instruments such as the *UNDP-UN Women COVID-19 Global Gender Response Tracker,* and its successor *Global Policy Observatory for Gender Equality* that monitors and assesses public policies from a gender perspective. Drawing on the Global Policy Network, the Global Programme will:

Expand the COVID 19 Global Gender Response Tracker for Gender Equality towards new measures, such as for examples:

- **Monitor responses to debt crises and austerity measures**, fiscal policies, care policies health, conflict, or other socio-economic global crises and analyzes them from a gender perspective.
- **Identify, disseminate and help replicate** - through policy advice and capacity building - tested policy solutions for advancing gender equality adapted to the needs of the country, such as crisis and non-crisis contexts, for SIDS, LDCs, MICs.

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

- **Facilitate the development of country-level observatories and policy dialogues** with civil society, academia, governments, and private sector, sharing promising practices and areas of persistent challenge.

Outcome 2: Governance systems and States capabilities are ready to advance gender equality.

UNDP Branded Flagships under this Outcome: 1) Gender Equality Seal, 2) Gender Social Norms Lab (pipeline) and Index; 3) Early Warning System to prevent backlashes; 4) Global Helpdesk on GBV Integration (pipeline)

Effective, inclusive, and accountable governance keeps development focused on meeting people's needs and realizing their rights. Evidence shows the multiple benefits of gender equality in governance. At a moment of renewed focus on the central importance of States, the Global Programme will pursue opportunities to advance a new generation of gender-responsive public institutions, policies and services that deliver for all citizens, and the expansion of civic spaces for women towards inclusive governance systems.

This outcome contributes to Signature Solutions 2 and 6, and the expected results by 2025 are:

- ✓ **30 countries** supported so they have expanded women's and feminist networks
- ✓ **100 public institutions and private companies** have been certified with the Gender Equality Seal
- ✓ **10 new countries** (total 100) supported to strengthen legislation and policy to prevent and respond to gender-based violence
- ✓ **100 interventions** that work for social norms change will have informed policymaking

Target countries: Interventions under this outcome are eligible to all countries (LDCs, MICs, SIDS) with political interest and with functioning institutions or being in the process of reconstruction after crisis or conflict.

To achieve them, the following Outputs will be delivered, in close partnership between the gender and the governance teams:

Output 2.1 Strengthened public institutions to deliver gender responsive and informed public policies and services.

UNDP aims to support governments to strengthen their capabilities to deliver on their commitments on gender equality and the SDGs. Drawing on the Global Policy Network, the Global Programme will:

Create the Gender Equality Seal for Public Institutions Center of Excellence, including to:

- **Support** institutional changes of public institutions to implement the Seal.
- **Assist the development of gender responsive public policies** and legal reforms.
- **Support government efforts to develop and expand mechanisms for civic engagement**, including regulations for women's organizations to function effectively in the public sphere.
- **Integrate the Gender Equality Seal for Public Institutions** in UNDP's programmatic offer on Climate, Finance for SDGs, and Digital, creating special tracks for ministries and agencies of Environment, Economy and Finance, Taxation, and New Technologies.
- **Strengthen the evidence base** to advance gender equality in public administration including through the Global Policy Observatory and Gender Equality and Public Administration (GEPA) programme, and the EQUALFUTURE platform, with special focus in parity data and quotas systems.

Output 2.2 Women, feminist organizations, and women's networks, influence public decision making, including in climate change affected countries and crisis contexts.

The collective mobilization, voice and influence of women in all their diversity is part of an inclusive public sphere. Aligned to the GES 2022-2025, the Global Programme will help protect and expand space for women-led civil society organizations, and feminist networks in urban and rural areas to advance women's leadership and participation, under the leadership of

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

UN Women. UNDP will redouble its efforts to advance women's peace and recovery roles. Drawing on the Global Policy Network, the Global Programme will:

- **Help develop mechanisms, enabling spaces, and capacity building to expand women´s political leadership and representation.**
- **Boost support to women-led and feminist organizations and networks,** investing in partnerships to advance their priorities.
- **Support governments to open spaces for women-led community-based associations,** promoting the recognition, involvement and representation of women as key stakeholders and decision-makers across sectors, including in crisis, environment and energy-related processes.
- **Implement strategies in countries where feminist organizations and women's networks are threatened,** including crisis contexts, through 1) the development of data and analysis that helps them in policy dialogues and helps prevent backlashes, such as through AI Early Warning Systems, 2) supporting the development of their leadership skills, and 3) opening spaces and connecting the networks with key governmental stakeholders and other relevant networks, such as networks of men for gender equality.
- **In crisis contexts, facilitate the creation of decision-making mechanisms** that make women leaders and local women's organizations a core part of peace and recovery processes.
- **Identify threats and rights violations of persons based on their sexual orientation or gender identity, prioritizing women and women trans,** both in crisis and non-crisis contexts, and help build alliances, networks, and strategies to end discrimination.

Output 2.3 Public institutions at all levels are equipped to prevent and reduce gender-based violence.

As the world's most pervasive violation of human rights, occurring everywhere in the world, gender-based violence (GBV) undermines development and is a driver of conflict and poverty. UNDP takes a holistic, whole-of-society approach, helping governments develop legal and policy frameworks and build capacities to prevent violence, end impunity for perpetrators, and ensure access to justice and protection. Drawing on the Global Policy Network, and building on experience gained from the implementation of Spotlight Initiative and UNDP's unique multi-country pilot on GBV integration to End GBV and Achieve the SDGs, the Global Programme will:

- **Provide technical advice and guidance** to strengthen capacities of countries and institutions to advance gender equality and eliminate GBV, including by generating data and evidence, and amplifying the efforts of other UN-system partners and civil society, through the GBV SparkBlue Community of Practice and a dedicated Global Helpdesk for GBV integration.

- **Expand opportunities for collaborative GBV integration into non-GBV-focused interventions and programmes**, guided by a comprehensive, intersectional, multi-actor, and multidimensional approach, in particular identifying and supporting programming related to environment, climate change, economic recovery, migration, governance including local governance, and poverty eradication.

- **Identify and provide strategies for addressing GBV faced by** women based on their sexual orientation and gender identity, analyzing social norms, structures and power dynamics that put populations at risk, and helping countries develop context-specific strategies;

- **Generate evidence and cultivating learning on what works to prevent GBV**, elevating thought leadership including through community-based interventions that build on evidence-based frameworks such as RESPECT, address toxic social norms, promote positive forms of masculinity, and engage men and boys, scaling learning though UNDP data flagships.

Output 2.4 Data and innovation advance social norms change and prevention of backlashes against women's rights.

Only with evidence-based research is it possible to identify causes and triggers that can transform negative social norms, tailor solutions to causes of problems, and design innovative policies. The Global Programme will leverage UNDP's Gender

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

Social Norms Index with the Human Development Office, which measures how social beliefs obstruct gender equality. Drawing on the Global Policy Network, the Global Programme will:

- **Develop a Gender Social Norms Lab that:**
    - **Generates evidence and data on social norms**, conducting research though the UNDP's Gender Social Norms Index efforts, including on masculinities and gender roles;
    - **Identifies, designs and tests measures with potential to transform social norms**;
    - **Provides technical support to governments** to localize, adapt and implement policy measures, programmes and initiatives to transform social norms; and
    - **Facilitates regional and global dialogues** between governments, leading universities, think tanks and experts to identify policy solutions to transform gender social norms.
- **Prototype and develop an Early Warning System** to respond to backlashes to gender equality through artificial intelligence, and in partnership with civil society organizations.

Outcome 3: A green transition is accelerated and contributes to gender equality.

Flagships under this Outcome: 1) Global Hub on Gender, Environment and Energy (pipeline), 2) Gender Equality and Sustainable Energy Platform and Global Learning Lab.

Gender inequality is one of the main barriers to advancing the environmental dimension of sustainable development - a critical barrier to resolve in the context of a growing climate emergency. Land degradation, deforestation, loss of biodiversity, water scarcity and pollution increase poverty and hunger for all, especially women, and intensify their paid and unpaid workloads. While impacts are differentiated, solutions must be integrated, as evidence from across sectors shows clearly that higher levels of gender equality are linked to greater development and environmental outcomes – from improved forest governance, to ratifying legislation for protected areas and climate action, to shifting consumer patterns. Accelerating a green transition requires societal and economic transformation – with gender equality at its heart.

Target countries: Interventions under this outcome prioritize LDC countries with limited clean energy infrastructure, and especially SIDS, particularly those participating in UNDP's Climate Promise and Sustainable Energy Hub. The outputs below will be implemented in collaboration between the gender team, the environment and climate teams and the Sustainable Energy Hub and others.

This outcome contributes to Signature Solutions 4, 5 and 6, and contributes toward the institutional expected results by 2025, including: and the expected results by 2025 are:

This outcome contributes to Signature Solutions 4, 5 and 6, and the expected results by 2025 are:

- ✓ **10 countries** supported to channel climate finance to gender-just transitions.
- ✓ **7 countries** supported to generate green jobs and reduce time poverty through their energy infrastructure investments and national frameworks.

To achieve them, the following Outputs will be delivered:

Output 3.1 Climate finance for gender equality advanced

While climate finance can achieve both climate and gender equality goals together, only a small share goes to gender equality. UNDP will tap its partnerships with multilateral climate funds to advance practices that raise the bar, such as through required and rigorous gender analysis in designing and financing initiatives and mechanisms to routinely bring women's organizations into decision-making on project development, implementation and evaluation, as well as generating green jobs for women as part of a just transition. Drawing on the Global Policy Network, and the work of the Climate Promise, the Global Programme will:

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

- **Support the integration of gender equality** and women's economic empowerment measures in national fiscal and finance frameworks for climate, mechanisms, and coordination.
- **Generate data and contribute to testing and replicating promising practices** on climate and gender equality to help redirect climate investments into gender equality.
- **Open spaces for dialogues with feminist groups and women's networks, and for their participation in decision-making processes.**

Output 3.2 Modern energy reduces time poverty, and the green transition generates livelihoods for women

Energy access programmes have strong potential to accelerate women's economic empowerment. UNDP will work to ensure that women gain ownership of energy assets and benefit from the productive use of energy, as well as that energy investments contribute to reducing time poverty. Drawing on the Global Policy Network, and in close partnership with the Sustainable Energy Hub, the Global Programme will:

- **Provide policy and technical guidance to countries to develop gender-responsive energy investments.**
- **Help expand women's access to energy**, including control over energy management, consumption and services.
- **Identify energy investments and policy solutions that reduce time poverty and generate employment,** contributing to gender equality and the economic empowerment of women in all their diversity.
- **Support the development of gender-responsive energy value chains and labor markets**, including to attract and retain diverse women's involvement in the labor force, improve equitable provision and control of services; and foster gender-equal work environments.
- **Create a global platform and learning lab on Gender, Environment and Energy**, drawing lessons from pilot efforts in RBLAC and other regions. This includes:
    - **Produce cutting-edge knowledge and expertise on gender-energy linkages, women's economic empowerment and time poverty,** and fully embedding gender-responsiveness into the UNDP Sustainable Energy Hub's portfolio.
    - **Facilitate triangular knowledge sharing**, and tailored policy and programme advice to climate and environment decision-makers, grounded for example in the Global Policy Observatory for Gender Equality.

Outcome 4: Organizational internal changes enable UNDP to deliver transformative results on gender equality.

Flagships under this Outcome: 1) Global Learning Labs; 2) Gender Equality Seal for UNDP Country Offices; 3) Data Powerhouse (pipeline).

The Gender Equality Strategy 2022-2025 sets out an ambitious agenda: to help countries embrace complexity and find new solutions, responding with flexibility and promoting learning instead of compliance or rigid responses to gender equality.

At a pivotal moment for reimagining development, much depends on learning from the past to reframe strategies for our future. This outcome of the Global Programme will help UNDP scale up impact and achieve transformative results for gender equality. The **Gender Equality Seal** will continue to be the UNDP global initiative for operationalizing this Strategy.

The expected results by 2025 are:

- ✓ **A new cadre of leaders** will have built skills and strategies for opening opportunities for gender equality

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

- ✓ **Frontier knowledge** on gender equality will be supporting country offices and connecting their order and labels expertise
- ✓ **A UNDP gender data powerhouse** will be guiding decisioning and holding the organization to account on its commitments on gender equality
- ✓ **An equal and inclusive work culture** will ensure everyone feels safe and empowered, and everyone contributes to gender equality

To achieve them, the following Outputs will be delivered:

Output 4.1 Enhanced UNDP leadership for gender equality.

UNDP will invest in leaders skilled in opening spaces for self-reflection around the profound changes that gender equality requires. It will call on leaders to push beyond comfort zones to generate changes in thinking and behaviors while modelling power-sharing in practice. Drawing on the Global Policy Network, the Global Programme will:

- **Certifying UNDP leaders, including Resident Representatives, Deputy Resident Representatives** and others, through a dedicated first world class course on Leadership for GEWE to sharpen thinking on and strategies for addressing gender inequalities.
- **Equipping leadership with actionable and updated gender data, analytics and analysis** across a range of areas linked to the Gender Equality Strategy through innovation labs.
- **Developing a solid communications strategy together with BERA, rolling out at least one global advocacy campaign** focusing on strategic priorities outlined in the Gender Equality Strategy.

Output 4.2 Consolidated and agile architecture to integrate gender equality across portfolios. (Gender Equality Seal).

UNDP will build a gender architecture supporting country offices in moving away from mechanical approaches to gender equality and towards identifying and dismantling structural barriers. Achieving this goal will require integration, coordination and gender expertise. The Gender Equality Seal will continue to be the UNDP global initiative for equipping country offices to advance gender equality. Expanding the Seal to regional hubs and headquarters will accelerate individual and organizational change and achieve transformative shifts, such as a tailored track of services for crisis countries. This output links across others, building tailored knowledge and skills to contribute to Outcomes 1, 2, and 3. Drawing on the Global Policy Network, the Global Programme will:

- **Implement the Gender Equality Seal across country offices while expanding the Seal to Regional Hubs and Headquarters teams, including:**
  - **Fostering learning and knowledge sharing** among global, regional teams and country offices, including dynamic learning plans, community of practice and good practices; and
  - **Strengthening the roster of certified experts** through a unified call for assessors and creating a unified space for training, the Seal Academy.
- **Develop capacities of personnel on transforming gender social norms,** including guidelines to promote positive masculinities and gender relations both within the organization and in programming.
- **Create a new network of gender specialists in key topics including feminist economics, energy and climate specialists, digitalization, gender social norms** and beyond to provide on-call support to country offices and UNDP teams. Recruitment of experienced gender specialists in each country office will be encouraged, with a mandatory requirement of one full-time gender specialist in each crisis country to be monitored by GSIC.
- **Design and deliver at least two Global Learning Labs** on 1) Behavioral science and social and individual change and 2) Inclusive economies valuing unpaid care work offering frontier knowledge. The labs will become knowledge platforms for country experiences connecting UNDP and its partners with the best external experts in each field.

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

Output 4.3 UNDP is accountable for its commitments to gender equality.

As each Annual Report shows, UNDP has a solid track record delivering on its gender equality commitments. At the same time, to fully embrace and monitor the implementation of the most ambitious gender equality strategy to date, UNDP will need mechanisms and capacity in place to track, analyse and communicate data. Drawing on the Global Policy Network, the Global Programme will:

- **Design a global online Gender Data Powerhouse** platform to gather, analyse and ensure easy access to digested information, to supporting decision making at every level in the organization.
- **Explore forms of meaningfully measuring intersectional impact in programs**, including discrimination and inequalities based on gender identity, ethnicity, religion, sexual orientation, place of living, age, education and more.
- **Fulfill the annual reporting** and corporate accountability– annual report to the Executive Board and requirements of the United Nations System-wide Action Plan on Gender Equality and the Empowerment of Women; and **the Gender and Steering Implementation Committee**
- **Collect and analyzing relevant corporate data** including from the Gender Marker, the ROAR and the Gender Seal to enable the organization to assess progress against the new GES.

Assumptions

In order to achieve the implementation of this Global Programme, UNDP counts with the following **assumptions**:

- Portfolio mechanisms are in place to adopt integrated approaches with gender equality at the core.
- Financial resources match ambition. Only those outputs that are funded will be implemented.
- Enablers – finance, innovation, digitalization – can be maximized and leveraged for gender equality.
- Sufficient gender architecture, with a mix of general gender expertise and gender thematic expertise, is enabled.
- Risks do not impede ambition, steer attention away, or redirect resources.

  Internal and external political will is sustained.

Partnerships

The current Gender Equality Strategy 2022 – 2025 has redefined how UNDP partners, acknowledging that Gender Equality cannot be achieved in four years, nor by UNDP alone. In line with the Strategy, UNDP will pursue new partnerships, especially with civil society (formal and informal networks), and expand current ones to implement this Global Programme and achieve its Outcomes. UNDP will foster collaborative leadership and learning, valuing diverse sources of knowledge, and pursuing creative, emotionally engaging and analytically sound collaboration.

In order to advance towards ***Outcome 1: Economies are inclusive and women economically empowered***, UNDP's collaboration with the ILO, UN Women and UNICEF will be critical to help develop care systems, eliminate discrimination in the labour market and expand jobs and livelihoods. UNDP will capitalize on existing global platforms, including the Global Alliance on Care, the Gender Working Group of the Social-Protection Inter-Agency Cooperation Board (SPIAC-B), and the group on gender of the Inter-agency Taskforce on Financing Development. UNDP will expand its collaboration with UNCDF, UNCTAD, ITU, FAO and UNSG's Special Advocate for inclusive finance for development on its efforts on digitalization, women's entrepreneurship, and business for development.

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

On data generation, UNDP's main partner is UN Women. UNDP is also catalyzing partnerships with other agencies including ILO, UNICEF, UNODC, OECD, FAO, IMF and the World Bank, together with academia, think tanks and civil society.

UNDP already works with UN Women, OECD and the IMF to help redirect public and private finance towards gender equality, as well as with INFF partners, such as UNICEF. Besides the UN system, UNDP is expanding its alliances with women's organizations, feminist economists and social science academics, and climate change organizations. UNDP will continue expanding collaboration with IFIs, such as the World Bank and IFC, as well as the private sector to promote women's leadership and participation, develop inclusive workplaces free of harassment and find solutions to better balance women's unpaid and paid care responsibilities.

To advance towards ***Outcome 2: States capabilities are ready to advance gender equality***, UNDP works closely with UN Women, the United Nations Department of Political Affairs, the Inter-Parliamentary Union and regional normative bodies to advance global norms and national practices that further women's leadership in politics and public institutions. UNDP will scale up global, regional and local alliances with feminist organizations and women's networks in development and crisis settings, including youth-led, and will expand collaboration with academia, including existing partnerships with the University of Pittsburgh and SOAS, as well as new in the Global South.

Interventions related to preventing and responding to gender-based violence will continue to be done in close collaboration with partners with shared goals. UNDP's major partners are UN Women, UNFPA and UNICEF, and other UN partners also part of the Spotlight Initiative, namely UNODC, WHO, and UNHCHR, as well as the UN and Member States from the Group of Friends for SDG 5.2.

UNDP will open partnerships with think tanks, universities from the Global South and Global North, governments and civil society for the development of the Gender Social Norms Lab and the Early Warning System to prevent backlashes.

Major partnerships towards ***Outcome 3: A green and just transition accelerates gender equality*** include with UNEP, FAO, the Organization for Economic Cooperation and Development (OECD), the United Nations Framework Convention on Climate Change, the Convention on Biological Diversity, the United Nations Convention to Combat Desertification, and other specialist partners. UNDP will scale up its partnership with civil society organizations, including through the Action Coalition on Feminist Action for Climate Justice.

Stakeholder Engagement

The final target group of this program are policymakers, together with women's networks, academia and the private sector, all of them through support provided to UNDP country offices, and in collaboration with other UN agencies and development institutions. One of the key features of this program is to facilitate cross-country learning and scaling up of promising practices. Through e-discussions, annual events, data generation platforms, and national dialogues, stakeholders will be part of the design of solutions and engaged in the implementation. The knowledge generated aims to contribute to reaching consensus, common vision and direction and joint forces with different stakeholders.

South – South and Triangular Cooperation

In line with UNDP's corporate strategy on SSC/TrC recognizing the critical role of national capacities and the importance of universal access to knowledge as a development multiplier for accelerating the achievement of the 2030 Agenda, the Global Programme is deliberately designed to facilitate south-south exchanges, and in the context of the multiple crisis also south-north exchange, among countries and regions to share experiences, learn new practices and adapt and apply best practice solutions in relation to governance.

The Global Programme will identify and promote whenever possible technical specialists, experienced practitioners, trainers, researchers, analysts, advocates and other 'change agents' who are available for short-term south-south exchanges and convene south-south experts and expert organisations around key issues. The universality of Beijing and the 2030 Agenda represents an excellent opportunity for north/south/east/west exchange of experiences, best practices and lessons learned. The programme will utilise opportunities for the sharing of knowledge and capacity development through regional and national project activities that will bring together counterparts from beneficiary countries globally.

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

Knowledge

The Global Programme's approach to gathering new knowledge, learning continuously and harnessing innovation will transform how UNDP thinks about and acts on gender equality. The programme will catalyse internal knowledge and knowledge exchange between governments and other partners through the learning labs, and the integrated nature of gender equality work, connecting the dots between UNDP's portfolios.

The Global Programme will harness UNDP's comparative advantage in this area. UNDP has emerged as a prominent thought leader on gender equality. The work of UNDP is well recognized for helping to shape the public discourse and leading policy debates on gender equality. UNDP holds a unique position to support the development of evidence-based policies, with frontier knowledge and highly specialized expertise able to shape global dialogues on development linked to gender equality. Furthermore UNDP has solid and well-established analytical instruments such as the UNDP-UN Women COVID-19 Global Gender Response Tracker, and its successor the Global Policy Observatory for Gender Equality, and its partnership work with academia, such as the University of Pittsburgh on the Gender Equality and Public Administration (GEPA) initiative and Gender Parity in the Civil Service (Gen-PaCS) Dataset.

All outputs include an integrated knowledge management component with innovative knowledge products to position UNDP as a global thought leader on gender equality. There is also a specific output 4 which contributes to building tailored knowledge and skills to contribute to Outcomes 1, 2, and 3. The Global Programme will generate knowledge on key thematic areas including social protection and care work; inclusive governance, gender equality in public administration, including focus on parity data and quotas; digitalisation; gender based violence; civil society and feminist organisations; gender, environment and energy, among others.

A learning approach will be central to the work of the global programme through the creation of global learning labs, which will deepen staff skills and offer frontier knowledge. The labs will become knowledge platforms for country experiences connecting UNDP and its partners with the best external experts in each field. The Global Programme will leverage UNDP's Gender Social Norms Index with the Human Development Office, which measures how social beliefs obstruct gender equality. A Gender Social Norms Lab will be developed to generate evidence and data on social norms, test measures to transform social norms, and facilitate dialogues between governments, leading universities, think tanks and experts to identify policy solutions to transform gender social norms

Through this global programme, the Global Policy Observatory for gender equality will produce data and evidence to facilitate knowledge sharing and policy decision-making. This will include for example

- generating data and knowledge exchange and policy advice on gender-responsive social protection and care systems, building on the UNDP-UN Women COVID-19 Global Gender Response Tracker data and catalogue of solutions.
- strengthening data and knowledge sharing to advance gender equality in public institutions and policy making, for example through Gender Equality and Public Administration (GEPA) programme and partnership with academic institutions, such as the University of Pittsburgh.
- Creating a global platform and learning lab on Gender, Environment and Energy, producing cutting-edge knowledge and expertise on gender-energy linkages. It will also facilitate knowledge sharing, and tailored policy and programme advice to climate and environment decision-makers.

UNDP will continue to invest in strengthening knowledge-sharing on gender equality both internally and within the wider development community. Knowledge on gender equality will be systematically documented and shared, both internally across the Global Policy Network (GPN) and externally. UNDP will continue to invest in strengthening its thought leadership role, and facilitate access to global knowledge and expertise within and beyond UNDP. The Global Policy

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

Network communities of practice will continue to facilitate public engagement in e-consultations and webinars, as well as continue to expand membership and participation. The programme will continue to develop innovative tools, campaigns, comprehensive research, guidance notes and policy briefs relating to gender equality and the empowerment of women, and share these with the public through UNDP events, websites, blogs, stories, videos and social media content. Strong links with media outlets and the Gender Team's success in gaining news coverage will be leveraged to ensure UNDP is at the forefront of advocacy on gender equality. The Global Programme will ensure visibility at key events such as International Women's Day and CSW. The programme will ensure a major global report on gender equality is published every year, such as the global report on Gender Equality in Public Administration.

Sustainability and Scaling Up

Sustainability and scaling up will be based mostly on two major ingredients:

1) Most of the work on gender equality will be done through UNDP's existing portfolios, and therefore building capacities so these interventions can continue within these portfolios even when the program has finalized, is a priority;

The Global Programme will build on the learning from evaluations that show that accelerating and scaling up transformative results for gender equality require the full integration of gender expertise across technical teams and the investment of adequate financial resources. UNDP will build a gender architecture supporting country offices in moving away from mechanical approaches to gender equality and towards dismantling structural barriers. Achieving this goal will require integration, coordination and gender expertise. The global programme will build a new network of gender specialists, including feminist groups of economists and experts on gender equality and nature, climate and energy, who will provide on-call support to country offices and UNDP teams.

2) A strong emphasis in building gender-responsive public institutions and helping women's movements and feminist CSOs to connect and scale up their impact.

Partnering with grass-roots and women's organizations can shift policy. Connecting and opening dialogues between grass-roots groups and decision-makers has been among the most efficient means of influencing policy decisions. The Global Programme will further develop such alliances, recognizing their additional potential to shift structural dynamics.

The Global Programme will pursue opportunities to advance a new generation of gender-responsive public institutions, policies and services that deliver for all citizens, and the expansion of civic spaces for women towards inclusive governance systems. The programme will work with public institutions to bring more women leaders into decision-making positions where they can influence solutions. By supporting national stakeholders and facilitating partnerships between them, ensures gender equality capacities that are developed will remain with national entities, thus enabling more gender responsive policies and programmes.

IV. Project Management

The GEGP will fully leverage UNDP's architecture, with activities and partnerships among various initiatives at the global, regional and country level, including regional programmes and gender teams, to ensure cost efficiency and value for money in Programme implementation. The Programme is also designed to deliver maximum results with the available resources by ensuring the design is based on good practices and learned lessons, especially those garnered through the GES 2022-2025 development process, as indicated elsewhere, and that activities are specific and clearly linked to the expected outputs. It further presents a sound results management and monitoring framework in place with indicators linked to the Theory of Change.

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

The GEGP team will be located within the Gender Team of the Bureau for Policy and Programming Support (BPPS) Global Policy Network, based in Headquarters and Regional Hubs. The Programme aims to combine a mix of internal resources (core, Track 2 and 3, and existing thematic programs) and external resources, through financial and partner mobilization. Cost efficiency and effectiveness in the programme management will be achieved through adherence to the UNDP Programme and Operations Policies and Procedures (POPP) and reviewed regularly through the regular meetings of the Project Board. The Programme will be implemented through a Direct Implementation Modality (DIM). Under DIM, UNDP will bear full responsibility and accountability to manage the project, achieve project outputs and ensure the efficient use of funds. UNDP will be accountable to the funding partners for the disbursement of funds and the achievement of the project objective and outcomes, according to approved work plans. UNDP will be responsible for the following functions: (i) coordinating activities to ensure the delivery of agreed outcomes; (ii) certifying expenditures in line with approved budgets and work-plans; (iii) facilitating, monitoring and reporting on the procurement of inputs and delivery of outputs; (iv) approval of Terms of Reference for consultants and tender documents for sub-contracted inputs; and (vi) reporting to the Project Board on project delivery and impact.

The Programme will be managed through two levels of support – strategic and operational. At the strategic level, the programme will establish a Project Board (PB) that will meet twice per year. To ensure that the Program meets the needs of country offices, the Project Board will be formed by:

- Two resident representatives.
- One country office gender specialist.
- The program lead and the program manager.

At an operational level the Global Policy and Programme Support Unit (Global Policy Advisors/Specialists as well as designated Operational Support function), housed in the UNDP BPPS Gender team, that will be responsible for the day-to-day management of the project.

The Head of Gender, BPPS will ultimately be accountable for the results of the project. The Senior Gender Advisor, delegating to the relevant policy and programme specialists, will be responsible for day-to-day management and decision-making under the supervision of the Head of Gender, who will ensure compliance with the required standards of quality and within the specified limits of time and cost. The Policy and Programme Support unit under the Gender Team will be responsible for liaising with other relevant projects and initiatives as needed and as outlined in this project document.

Policy, programming, and knowledge management support will be delivered by the UNDP regional hubs. Country support will be delivered by the Policy and Programme Support unit in close coordination with the respective Regional BPPS Advisors on gender, as well as the respective Regional Bureaux: the Regional Bureau for Africa, the Regional Bureau for Asia and the Pacific, the Regional Bureau for Arab States, the Regional Bureau for Europe and CIS and the Regional Bureau of Latin America and the Caribbean. Activities implemented by the Global Gender team will be delivered to support UNDP country offices, in close coordination with them, and in consultation and collaboration with their regional bureaus and other project partners as needed.

At HQ, within each of the outcome areas, there will be gender specialists working to support the delivery of flagship initiatives, including coordinating the gender equality seals/ centre of excellence; the observatory; governance initiative; digitalisation; taxation etc, and gender specialists coordinating project management functions to ensure delivery of the flagships. In addition, there will be a full-time Data and Reporting Specialist (P3) who will ensure that the reporting from other collaborative programs are fully integrated into the programme's reporting and work. There will be a gender and communications specialist and a full-time gender and community of practice facilitator located in Istanbul. The programme will have administrative and financial support officers to support the programme's implementation. Given the incremental start-up to the Programme, the staffing level and composition will evolve as different priorities are funded.

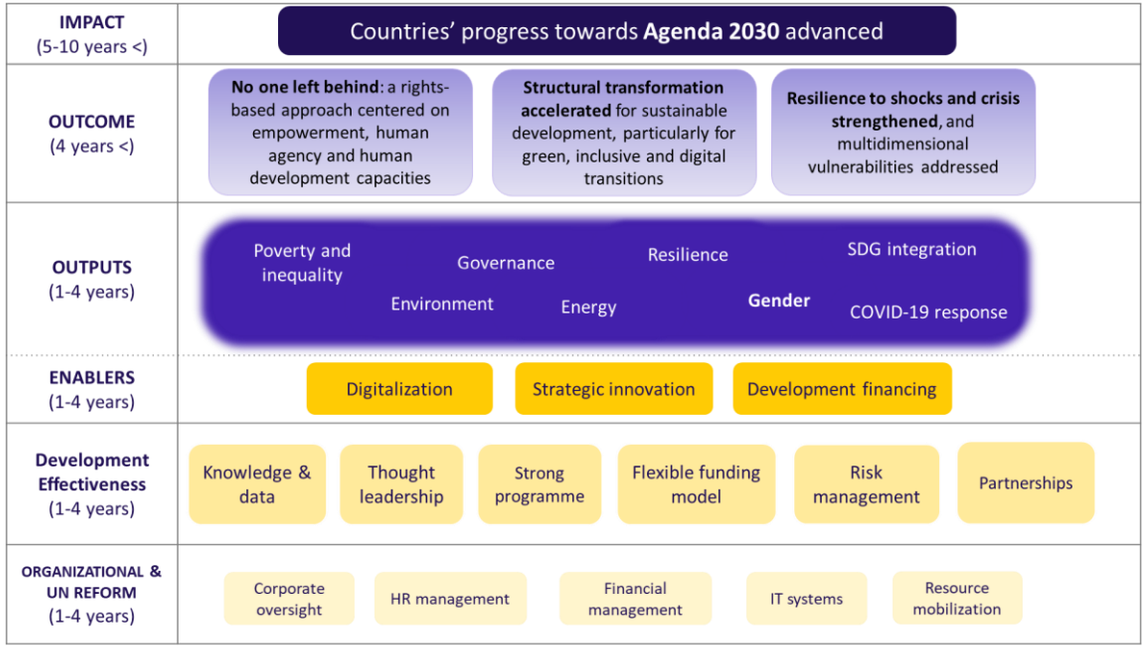

In order to avoid double reporting and ensure efficient implementation, the implementation of the program will be conducted 1) directly by the global gender team based in HQ and regional hubs, and country offices with direct reporting, and 2) through other collaborative programs such as the Tax for SDGs program, SPOTLIGHT and other collaborative initiatives with cross-team regional and global teams as agreed for each concrete output.

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

V. Results Framework

The GEGP contributes to UNDP's overarching Impact, as articulated in the Integrated Results and Resources Framework: *People's choices [are] expanded for a fairer, sustainable future, to build the world envisioned by Agenda 2030 with planet and people in balance.*

Figure 4. UNDP Strategic Plan 2022-2025

The GEGP contributes to UNDP's overarching Impact, as articulated in the Integrated Results and Resources Framework: *People's choices [are] expanded for a fairer, sustainable future, to build the world envisioned by Agenda 2030 with planet and people in balance.*

Intended Outcomes that the GEGP contributes towards, per the UNDP Strategic Plan Results and Resource Framework (UNDP SP 2022-25):

Outcome 1: Structural transformation accelerated, particularly green, inclusive, and digital transitions

Outcome 2: No one left behind, centring on equitable access to opportunities and a rights-based approach to human agency and human development

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

Relevant **Outcome Indicators** per the UNDP Strategic Plan Results and Resources Framework

Indicator 1.3 - Proportions of **positions in national and local institutions**, including (a) the legislatures and (b) the public service, compared to national distributions, by sex, age, persons with disabilities and population groups

Indicator 1.5 - Proportion of **women in managerial positions**

a) Managerial positions
b) Senior and middle management positions

Indicator 1.6 – Women on climate boards

Indicator 1.7 - Proportion of **gender-sensitive policy measures in total policy measures enacted in response to COVID-19**, which address:

a) Women's economic security
b) Unpaid care work
c) Violence against women

Indicator 1.8 - Proportion of **time spent on unpaid domestic and care work, (disaggregated)**

Indicator 1.9 - Percentage of achievement of **legal frameworks in place** to promote, enforce and monitor equality and non-discrimination on the basis of sex in relation to:

a) Violence against women;
b) Overarching legal frameworks and public life; and
c) Employment and economic benefits, marriage, and family

[Indicator 1.10 - Proportion of adults (15 years and older) with **an account at a bank or other financial institution or with a mobile-money-service provider – [***(if disaggregated)]*

Indicator 2.2 - Proportion of **population covered by at least one social protection benefit**, disaggregated by sex

Indicator 2.4 – Labor force participation, disaggregated by sex

Indicator 2.5 - Proportion of ever-partnered women and girls aged 15 years and older subjected to physical, sexual or psychological violence by a current or former intimate partner in the previous 12 months, by form of violence and by age

Indicator 2.7 - Percentage of women ages 15 and older who report having an individual or joint account at a bank or other financial institution or who report using a mobile money service

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

Indicator 3.1 - Proportion of **women among mediators, negotiators and technical experts in peace negotiations**

Applicable Output(s) from the UNDP Strategic Plan:

1.1 The 2030 Agenda, Paris Agreement and other inter-governmentally agreed frameworks integrated in national and local development plans, measures to accelerate progress put in place, and budgets and progress assessed using data-driven solutions

1.2. Social protection services and systems strengthened across sectors with increased investment

1.3 Access to basic services and financial and non-financial assets and services improved to support productive capacities for sustainable livelihoods and jobs to achieve prosperity

6.1 Country-led measures implemented to achieve inclusive economies and to advance economic empowerment of women in all their diversity, including in crisis contexts

6.1.1 Number of measures implemented to:

- *eliminate gender-based discrimination and segregation in labour market*
- *increase women's access to and use of digital technologies, digital finance, e-commerce and digital value chains*
- *ensure women's economic security and empowerment*

6.1.2 Number of new or strengthened policies, legislations and regulations or investment in national care systems in place

6.2 Women's leadership and participation advanced through implementing affirmative measures, strengthening institutions and civil society, and addressing structural barriers, in order to advance gender equality, including in crisis contexts

6.2.1 Number of countries with measures to advance women´s leadership and equal participation in decision-making in: Public institutions; NRM

6.2.2 Number of partnerships with women-led civil society organizations and other bodies and networks to advance women's leadership and participation and gender equality

6.3 National capacities to prevent and respond to gender-based violence (GBV) and **address harmful gender social norms** strengthened, including in crisis contexts

6.3.1 Number of countries with new and/or strengthened policy and legislative and institutional environment to prevent GBV

6.3.2 Number of initiatives to prevent GBV by addressing harmful social norms and gender discriminatory roles and practices

6.3.3 Number of entities with strengthened capacities to implement legislation, policies, action plans and initiatives to prevent GBV:

- *National entities*
- *Sub-national entities*

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

- *CSOs*
- *Private sector*

E.1 People and institutions equipped with strengthened digital capabilities and opportunities to contribute to and benefit from inclusive digital societies

E.3 Public and private financing for the achievement of the SDGs expanded at global, regional, and national levels

Tier III indicators

1.2.2 Percentage of expenditures with a significant gender component and with gender as a principal objective (QCPR)

1.2.3 Percentage of United Nations System-wide Action Plan on Gender Equality and the Empowerment of Women minimum standards met or exceeded (QCPR)

1.2.4 Number of country offices having completed Gender Equality Seal Certification

Expected Programme Outcomes:

1. Economies are inclusive and women economically empowered.
2. Governance systems and States capabilities deliver for gender equality.
3. A green transition is accelerated and contributes to gender equality.
4. Organizational internal changes enable UNDP to deliver transformative results on gender equality.

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

EXPECTED OUTPUTS	OUTPUT INDICATORS[13]	DATA SOURCE	BASELINE		MILESTONES, *collected annually and in total*				DATA COLLECTION METHODS
			Value	Year	2023	2024	2025	CUMULATIVE TARGET

VI. Monitoring and Evaluation

Monitoring Plan Monitoring Activity	Purpose	Frequency	Expected Action	Partners (if joint)	Cost (if any)
Track results progress	Collect and analyse progress data against the results indicators in the RRF to assess the progress of the project in achieving the agreed outputs.	Quarterly, or in the frequency required for each indicator.	Progress data against the results indicators in the RRF will be collected and analysed Slower than expected progress will be addressed by project management.	UNDP partners (Country Offices, relevant BPPS teams, Global Policy Centres, Regional Bureaux, Evaluation Office, Human Development Report Office, others as required UN Partners External partners will also be consulted as deemed necessary by project team and project board	TBD
Monitor and Manage Risk	Identify specific risks that may threaten achievement of intended results. Identify and monitor risk management actions using a risk log. This includes monitoring measures and plans that may have been required as per UNDP's Social and Environmental Standards. Conduct audits in accordance with UNDP's audit policy to manage financial risk.	Quarterly	Risks are to be identified by project management and actions are to be taken to manage risk. The risk log is actively maintained to keep track of identified risks and actions taken. Audits will be conducted in accordance with UNDP's audit policy to manage financial risk.		TBD
Learn	Knowledge, good practices and lessons will be captured regularly, as well as actively sourced from other projects and partners and integrated back into the project.	Annually	Relevant lessons are captured by the project team and used to inform management decisions.		TBD
Annual Project Quality Assurance	The quality of the project will be assessed against UNDP's quality standards to identify project strengths and weaknesses and to	Annually	Areas of strength and weakness will be reviewed by project management and used to inform

	inform management decision making to improve the project.		decisions to improve project performance.		
Review and Make Course Corrections	Internal review of data and evidence from all monitoring actions to inform decision making.	Annually	Performance data, risks, lessons and quality will be discussed by the project board and used to make course corrections.		
Project Report	A progress report will be presented to the Project Board and key stakeholders, consisting of progress data showing the results achieved against pre-defined annual targets at the output level, the annual project quality rating summary, an updated risk long with mitigation measures, and any evaluation or review reports prepared over the period.	Annually, and at the end of the project (final report)	A progress report will be presented to the Project Board and key stakeholders, consisting of progress data showing the results achieved against pre-defined annual targets at the output level, the annual project quality rating summary, an updated risk long with mitigation measures, and any evaluation or review reports prepared over the period.		
Project Review (Project Board)	Hold regular project reviews to assess the performance of the project and review the Multi-Year Work Plan to ensure realistic budgeting over the life of the project. In the project's final year, hold an end-of project review to capture lessons learned and discuss opportunities for scaling up and to socialize project results and lessons learned with relevant audiences.	Annually	The project board will hold regular project reviews to assess the performance of the project and review the Multi-Year Work Plan to ensure realistic budgeting over the life of the project. In the project's final year, the project board will hold an end-of project review to capture lessons learned and discuss opportunities for scaling up

Final evaluation	6.1,6.2,6.3 3.3 (recovery) 4 (climate) 5 (energy) Tier 3 (org eff)	6	December 2025	UNDP partners. External partners will also be consulted as deemed necessary by project team and project board	USD 100,000 Source: project budget

VII. Multi-Year Work Plan

EXPECTED OUTPUTS	PLANNED ACTIVITIES	Planned Budget by Year (2022-2025			RESPONSIBLE PARTY	PLANNED BUDGET		
		2023	2024	2025		Funding Source	Budget Description	Sum of total
Output 1.1: Social protection and public care systems are expanded, and care work recognized and redistributed	• **Facilitate policy dialogues and accompany governments through the policy cycle** for inclusive planning, costing, budgeting and implementation of gender-responsive social protection programs and care systems.	45,000	45,000	45,000	UNDP	UNDP/GMI	Travel Consultant Workshops Procurement Staff	135,000
	• **Generate data and facilitate knowledge exchange and policy advice on gender-responsive social protection and care systems**	90,000	90,000	90,000	UNDP	UNDP/GMI		270,000
	• **Georeference the supply and demand for care** at national and local levels, scaling up UNDP's Georeferencing Tool;	100,000	100,000	100,000	UNDP	TBD		300,000
	• **Advocate and make available methodologies on adding care into national accounting systems**, including technical support on its implementation;.	45,000	45,000	45,000	UNDP	UNDP/GMI		135,000
	• **Support national and local governments and partners, to scale up existing and pilot new care and gender-responsive**	80,000	80,000	80,000	UNDP	UNDP/CB		240,000

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

	social protection measures within the Out of Fragility Strategies, as well as crisis response and recovery plans.							
	SUBTOTAL	360,000	360,000	360,000				1,080,000
Output 1.2: Decent jobs for women are increased through digital technologies and policy reforms	• **Provide policy advice on the reduction of informality, increased activity rates of women** through economic, fiscal, and labor market policies, and the generation of employment for women in all their diversity in future-proof and non-traditional sectors.	60,000	60,000	50,000	UNDP	TBD	Travel Consultant Workshops Procurement. Staff	170,000
	• **Reduce the labor market segregation in STEM intensive industries** by scaling up the STEM4ALL platform for gender equality in STEM and supporting the development of national digital strategies that expand women's access to and use of digital technologies and digital finance through a Digital Livelihood Facility.	50,000	50,000	50,000	UNDP	UNDP/ExO		150,000
	• **Advance gender equality in the private sector** through the Business for Gender Equality Platform and the Gender Equality Seal for private institutions.	120,000	120,000	100,000	UNDP	UNDP/GMI		340,000
	• **Gender-responsive conflict and crisis analysis** to inform economic recovery programmes that position women as agents of change in crisis and post crisis settings. The Gender and Crisis Engagement Facility will continue to support country, regional and global teams to drive forward transformational change in crisis contexts.	60,000	60,000	60,000	UNDP	UNDP/CB		180,000
	SUBTOTAL	290,000	290,000	260,000				840,000
Output 1.3 Public and private finance unlocked for gender equality	• **Produce data and evidence** to facilitate decision-making in fiscal policies, including through the Global Policy Observatory for Gender Equality; and creating capacities to help countries to develop development finance assessments (DFAs) and Integrated National Financing Frameworks (INFFs) that contribute to gender equality.	152,000	152,000	152,000	UNDP	UNDP/GMI	Consultants Travel Workshops Procurement. Staff.	456,000
	• **Launch a high-visibility global roadmap** on gender-just tax systems for global advocacy and positioning, and to facilitate multi-stakeholder national policy dialogues.	100,000	100,000	100,000	UNDP	UNDP/BPPS/SDG/Finance		300,000

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

	• **Provide technical assistance in tax reforms**, including through the revision of tax laws, capacity development of tax officials, development of national gender equality taxation roadmaps, and development of M&E systems.	100,000	100,000	100,000	UNDP	UNDP/BPPS/SDG/Finance		300,000
	• **Scale up the Gender Equality Seal for the Public Sector for Ministries of Finance**, Planning, Tax Offices, Central Banks and aligned institutions interested.	108,000	108,000	108,000	UNDP	UNDP/BPPS/SDG/Finance		324,000
	• **Include a strong gender equality perspective in financial instruments**, particularly in SDG Investor Maps, insurance mechanisms and debt instruments, including SDG Bonds, Green Bonds, and other thematic bonds (bond taxonomies, revision of investment portfolios, capacity building and technical support to bond issuers, etc).	153,000	153,000	154,000	UNDP	UNDP/BPPS/SDG/Finance		460,000
	SUBTOTAL	613,000	613,000	614,000				1,840,000
Output 1.4 **Data is in place for rapid gender-responsive policy measures to overcome global socio-economic crises**	• **Monitor responses to debt crises and austerity measures,** fiscal policies, care policies health, conflict, or other socio-economic global crises and analyzes them from a gender perspective.	131,000	131,000	131,000	UNDP	GMI	Travel Consultant Workshops Procurement . Staff	393,000
	• **Identify, disseminate and help replicate** - through policy advice and capacity building - tested policy solutions for advancing gender equality adapted to the needs of the country, such as crisis and non-crisis contexts, for SIDS, LDCs, MICs.	200,000	200,000	200,000	UNDP	TBD		600,000
	• **Facilitate the development of country-level observatories and policy dialogues** with civil society, academia, governments, and private sector, sharing promising practices and areas of persistent challenge.	307,000	307,000	307,000	UNDP	TBD		921,000
	SUBTOTAL	638,000	638,000	638,000				1,914,000
Output 2.1 **Strengthened public institutions to deliver gender responsive and**	• **Support** institutional changes of public institutions to implement the Seal.	175,000	175,000	175,000	UNDP	TBD	Travel Consultant Workshops Procurement	525,000
	• **Assist the development of gender responsive public** policies and legal reforms.	200,000	200,000	200,000	UNDP	UNDP/GMI		600,000
	• **Support government efforts to develop and expand**	50,000	50,000	50,000	UNDP	TBD

VIII. Governance and Management Arrangements

The management arrangements for implementing the project will comprise of the following:

The Global Program Board will provide overall policy and strategic guidance. The Project Board will meet twice annually and will consist of a combination of global, regional and country representatives. In particular, it will be formed by:

- Two Resident Representatives.
- One country gender specialist.
- The program lead (BPPS Head of Gender).
- The program manager (BPPS Senior gender advisor).

The resident representatives and the country gender specialist will be selected among the gender equality champions of UNDP Gender Equality Seal Gold country offices.

• **Global Policy and Programme Support Unit** (Global Policy Advisors/Specialists as well as designated Operational Support function), housed in the UNDP BPPS Gender team, that will be responsible for the day-to-day management of the project.

UNDP will be the executing entity and administrative authority for the Gender Equality Global Programme. UNDP will be accountable to donor partners for the programme. The main role of the Board is to provide guidance and direction to the UNDP Policy and Programme Support Unit for the program to facilitate the effective and efficient implementation of the project. While the Policy and Programme Support Unit will be anchored in the Gender Team of UNDP's Bureau for Policy and Programme Support, it will draw on all technical resources available in UNDP's central and regional bureaus. Implementation will be done under the overall management of the BPPS Senior Gender Specialist and the oversight of the BPPS Head of Gender.

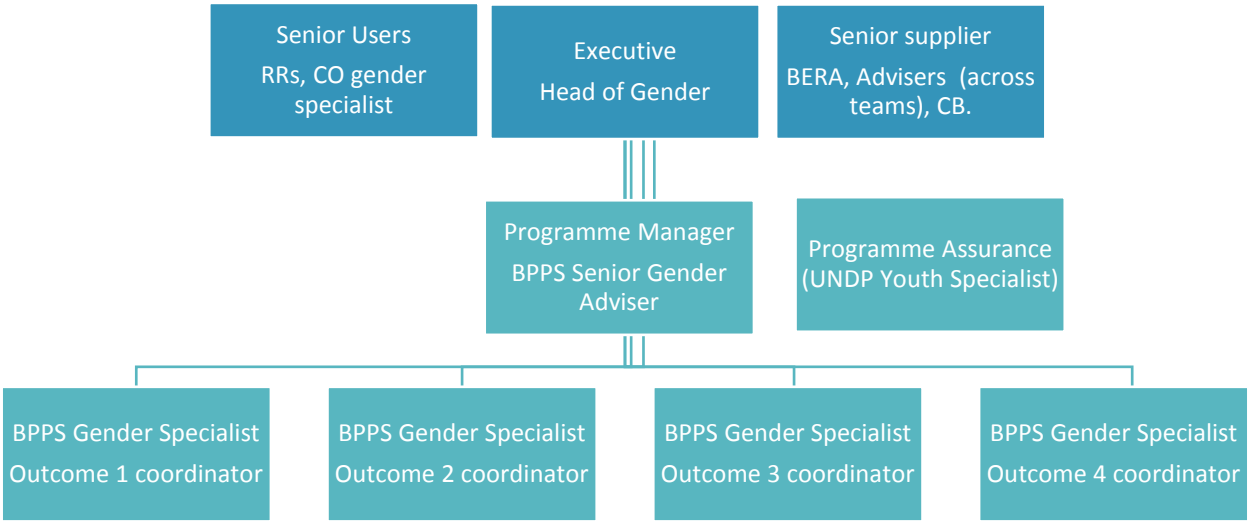

While implementation will be jointly conducted by HQ, regional and country teams, HQ will ensure global coordination, quality assurance and conduct resource mobilization efforts. Regional Hubs will help identify those country offices willing to engage in the program, and act as the interface for liaising with country offices. Country support will be delivered by the Policy and Programme Support unit jointly with the respective Regional BPPS Advisors on gender, as well as the respective Regional Bureaux: the Regional Bureau for Africa, the Regional Bureau for Asia and the Pacific, the Regional Bureau for Arab States, the Regional Bureau for Europe and CIS and the Regional Bureau of Latin America and the Caribbean. Activities implemented by the Global Gender team will be delivered with the respective UNDP country offices, in consultation and other project partners as needed. Those country offices that choose to participate in the program will ensure the engagement of relevant stakeholders at the country level.

The Global Gender programme will closely coordinate and exchange knowledge with relevant teams within BPPS and the Crisis Bureau; the Regional Bureaus and Regional Hubs; the Global Policy Centres; the Bureau for Management Services; and the Bureau for External Relations and Advocacy.

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

The Head of Gender, BPPS will ultimately be accountable for the results of the project. The BPPS Senior Gender Advisor, delegating to the relevant policy and programme specialists, will be responsible for day-to-day management and decision-making under the supervision of the Head of Gender, who will ensure compliance with the required standards of quality and within the specified limits of time and cost. The Policy and Programme Support unit under the Gender Team will be responsible for liaising with other relevant projects and initiatives as needed and as outlined in this project document.

UNDP will ensure diligent preparation and coordination of the Project Board and have regular technical team meetings. The Policy and Programme Support unit, under the supervision of the Head of Gender and the daily management of the BPPS Senior Gender Advisor, will be responsible for drafting the workplans, budgets and reports related to the project, and will coordinate, manage, and monitor all activities. The Gender Team, with dedicated financial management support, will manage project resources as per UN/UNDP rules and regulations and be responsible for mobilizing additional resources to the project.

IX. Legal Context

This project forms part of an overall programmatic framework under which several separate associated country level activities will be implemented. When assistance and support services are provided from this Project to the associated country level activities, this document shall be the "Project Document" instrument referred to in: (i) the respective signed SBAAs for the specific countries; or (ii) in the Supplemental Provisions attached to the Project Document in cases where the recipient country has not signed an SBAA with UNDP, attached hereto and forming an integral part hereof. All references in the SBAA to "Executing Agency" shall be deemed to refer to "Implementing Partner."

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

This project will be implemented by the agency UNDP ("Implementing Partner") in accordance with its financial regulations, rules, practices and procedures only to the extent that they do not contravene the principles of the Financial Regulations and Rules of UNDP. Where the financial governance of an Implementing Partner does not provide the required guidance to ensure best value for money, fairness, integrity, transparency, and effective international competition, the financial governance of UNDP shall apply.

X. Risk Management Standard Clauses

1. UNDP as the Implementing Partner will comply with the policies, procedures and practices of the United Nations Security Management System (UNSMS).
2. UNDP as the Implementing Partner will undertake all reasonable efforts to ensure that none of the [project funds][11] [UNDP funds received pursuant to the Project Document][12] are used to provide support to individuals or entities associated with terrorism , that the recipients of any amounts provided by UNDP hereunder do not appear on the United Nations Security Council Consolidated Sanctions List, and that no UNDP funds received pursuant to the Project Document are used for money laundering activities. The United Nations Security Council Consolidated Sanctions List can be accessed via https://www.un.org/securitycouncil/content/un-sc-consolidated-list. This provision must be included in all sub-contracts or sub-agreements entered into under this Project Document.
3. Social and environmental sustainability will be enhanced through application of the UNDP Social and Environmental Standards (http://www.undp.org/ses) and related Accountability Mechanism (http://www.undp.org/secu-srm).
4. UNDP as the Implementing Partner will: (a) conduct project and programme-related activities in a manner consistent with the UNDP Social and Environmental Standards, (b) implement any management or mitigation plan prepared for the project or programme to comply with such standards, and (c) engage in a constructive and timely manner to address any concerns and complaints raised through the Accountability Mechanism. UNDP will seek to ensure that communities and other project stakeholders are informed of and have access to the Accountability Mechanism.
5. In the implementation of the activities under this Project Document, UNDP as the Implementing Partner will handle any sexual exploitation and abuse ("SEA") and sexual harassment ("SH") allegations in accordance with its regulations, rules, policies and procedures.

6. All signatories to the Project Document shall cooperate in good faith with any exercise to evaluate any programme or project-related commitments or compliance with the UNDP Social and Environmental Standards. This includes providing access to project sites, relevant personnel, information, and documentation.

7. UNDP as the Implementing Partner will ensure that the following obligations are binding on each responsible party, subcontractor, and sub-recipient:
    a. The responsibility for the safety and security of each responsible party, subcontractor and sub-recipient and its personnel and property, and of UNDP's property in such responsible party's, subcontractor's and sub-recipient's custody, rests with such responsible party,

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

subcontractor and sub-recipient. To this end, each responsible party, subcontractor and sub-recipient shall:

i. put in place an appropriate security plan and maintain the security plan, taking into account the security situation in the country where the project is being carried;
ii. assume all risks and liabilities related to such responsible party's, subcontractor's and sub-recipient's security, and the full implementation of the security plan.

b. UNDP reserves the right to verify whether such a plan is in place, and to suggest modifications to the plan when necessary. Failure to maintain and implement an appropriate security plan as required hereunder shall be deemed a breach of the responsible party's, subcontractor's and sub-recipient's obligations under this Project Document.

c. Each responsible party, subcontractor and sub-recipient (each a "sub-party" and together "sub-parties") acknowledges and agrees that UNDP will not tolerate sexual harassment and sexual exploitation and abuse of anyone by the sub-parties, and other entities involved in Project implementation, either as contractors or subcontractors and their personnel, and any individuals performing services for them under the Project Document.

i. In the implementation of the activities under this Project Document, each sub-party shall comply with the standards of conduct set forth in the Secretary General's Bulletin ST/SGB/2003/13 of 9 October 2003, concerning "Special measures for protection from sexual exploitation and sexual abuse" ("SEA").
ii. Moreover, and without limitation to the application of other regulations, rules, policies and procedures bearing upon the performance of the activities under this Project Document, in the implementation of activities, each sub-party, shall not engage in any form of sexual harassment ("SH"). SH is defined as any unwelcome conduct of a sexual nature that might reasonably be expected or be perceived to cause offense or humiliation, when such conduct interferes with work, is made a condition of employment or creates an intimidating, hostile or offensive work environment. SH may occur in the workplace or in connection with work. While typically involving a pattern of conduct, SH may take the form of a single incident. In assessing the reasonableness of expectations or perceptions, the perspective of the person who is the target of the conduct shall be considered.

d. In the performance of the activities under this Project Document, each sub-party shall (with respect to its own activities), and shall require from its sub-parties (with respect to their activities) that they, have minimum standards and procedures in place, or a plan to develop and/or improve such standards and procedures in order to be able to take effective preventive and investigative action. These should include: policies on sexual harassment and sexual exploitation and abuse; policies on whistleblowing/protection against retaliation; and complaints, disciplinary and investigative mechanisms. In line with this, sub-parties will and will require that their respective sub-parties will take all appropriate measures to:

i. Prevent its employees, agents or any other persons engaged to perform any services under this Project Document, from engaging in SH or SEA;

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

ii. Offer employees and associated personnel training on prevention and response to SH and SEA, where sub-parties have not put in place its own training regarding the prevention of SH and SEA, sub-parties may use the training material available at UNDP;

iii. Report and monitor allegations of SH and SEA of which any of the sub-parties have been informed or have otherwise become aware, and status thereof;

iv. (iv) Refer victims/survivors of SH and SEA to safe and confidential victim assistance; and

v. Promptly and confidentially record and investigate any allegations credible enough to warrant an investigation of SH or SEA. Each sub-party shall advise UNDP of any such allegations received and investigations being conducted by itself or any of its sub-parties with respect to their activities under the Project Document, and shall keep UNDP informed during the investigation by it or any of such sub-parties, to the extent that such notification (i) does not jeopardise the conduct of the investigation, including but not limited to the safety or security of persons, and/or (ii) is not in contravention of any laws applicable to it. Following the investigation, the relevant sub-party shall advise UNDP of any actions taken by it or any of the other entities further to the investigation.

e. Each sub-party shall establish that it has complied with the foregoing, to the satisfaction of UNDP, when requested by UNDP or any party acting on its behalf to provide such confirmation. Failure of the relevant sub-party to comply of the foregoing, as determined by UNDP, shall be considered grounds for suspension or termination of the Project.

f. Each responsible party, subcontractor and sub-recipient will ensure that any project activities undertaken by them will be implemented in a manner consistent with the UNDP Social and Environmental Standards and shall ensure that any incidents or issues of non-compliance shall be reported to UNDP in accordance with UNDP Social and Environmental Standards.

g. Each responsible party, subcontractor and sub-recipient will take appropriate steps to prevent misuse of funds, fraud, corruption or other financial irregularities, by its officials, consultants, subcontractors and sub-recipients in implementing the project or programme or using the UNDP funds. It will ensure that its financial management, anti-corruption, anti-fraud and anti-money laundering and countering the financing of terrorism policies are in place and enforced for all funding received from or through UNDP.

h. The requirements of the following documents, then in force at the time of signature of the Project Document, apply to each responsible party, subcontractor and sub-recipient: (a) UNDP Policy on Fraud and other Corrupt Practices (b) UNDP Anti-Money Laundering and Countering the Financing of Terrorism Policy; and (c) UNDP Office of Audit and Investigations Investigation Guidelines. Each responsible party, subcontractor and sub-recipient agrees to the requirements of the above documents, which are an integral part of this Project Document and are available online at www.undp.org.

i. In the event that an investigation is required, UNDP will conduct investigations relating to any aspect of UNDP programmes and projects. Each responsible party, subcontractor and sub-

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

recipient will provide its full cooperation, including making available personnel, relevant documentation, and granting access to its (and its consultants', subcontractors' and sub-recipients') premises, for such purposes at reasonable times and on reasonable conditions as may be required for the purpose of an investigation. Should there be a limitation in meeting this obligation, UNDP shall consult with it to find a solution.

j. Each responsible party, subcontractor and sub-recipient will promptly inform UNDP as the Implementing Partner in case of any incidence of inappropriate use of funds, or credible allegation of fraud, corruption other financial irregularities with due confidentiality.

k. Where it becomes aware that a UNDP project or activity, in whole or in part, is the focus of investigation for alleged fraud/corruption, each responsible party, subcontractor and sub-recipient will inform the UNDP Resident Representative/Head of Office, who will promptly inform UNDP's Office of Audit and Investigations (OAI). It will provide regular updates to the head of UNDP in the country and OAI of the status of, and actions relating to, such investigation.

l. UNDP will be entitled to a refund from the responsible party, subcontractor or sub-recipient of any funds provided that have been used inappropriately, including through fraud corruption or other financial irregularities, or otherwise paid other than in accordance with the terms and conditions of the Project Document. Such amount may be deducted by UNDP from any payment due to the responsible party, subcontractor or sub-recipient under this or any other agreement.

   Where such funds have not been refunded to UNDP, the responsible party, subcontractor or sub-recipient agrees that donors to UNDP (including the Government) whose funding is the source, in whole or in part, of the funds for the activities under this Project Document, may seek recourse to such responsible party, subcontractor or sub-recipient for the recovery of any funds determined by UNDP to have been used inappropriately, including through fraud, corruption or other financial irregularities, or otherwise paid other than in accordance with the terms and conditions of the Project Document.

   Note: The term "Project Document" as used in this clause shall be deemed to include any relevant subsidiary agreement further to the Project Document, including those with responsible parties, subcontractors and sub-recipients.

m. Each contract issued by the responsible party, subcontractor or sub-recipient in connection with this Project Document shall include a provision representing that no fees, gratuities, rebates, gifts, commissions or other payments, other than those shown in the proposal, have been given, received, or promised in connection with the selection process or in contract execution, and that the recipient of funds from it shall cooperate with any and all investigations and post-payment audits.

n. Should UNDP refer to the relevant national authorities for appropriate legal action any alleged wrongdoing relating to the project or programme, the Government will ensure that the relevant national authorities shall actively investigate the same and take appropriate legal action against all individuals found to have participated in the wrongdoing, recover and return any recovered funds to UNDP.

DocuSign Envelope ID: 924799B6-5FC4-4C1D-BB9C-56119FC70C17

o. Each responsible party, subcontractor and sub-recipient shall ensure that all of its obligations set forth under this section entitled “Risk Management” are passed on to its subcontractors and sub-recipients and that all the clauses under this section entitled “Risk Management Standard Clauses” are adequately reflected, mutatis mutandis, in all its sub-contracts or sub-agreements entered into further to this Project Document.
