DocuSign Envelope ID: 7EDE1208-529E-4546-B794-AAAA0F56374B

Social and Environmental Screening Template (2021 SESP Template, Version 1)

The completed template, which constitutes the Social and Environmental Screening Report, must be included as an annex to the Project Document at the design stage. Note: this template will be converted into an online tool. The online version will guide users through the process and will embed relevant guidance.

Project Information

Project Information	
1. Project Title	Mainstreaming e-Mobility through the conversion of Tuk Tuks to Electric Vehicles (Engagement Facility)
2. Project Number (i.e. Atlas project ID, PIMS+)	145829
3. Location (Global/Region/Country)	Sri Lanka
4. Project stage (Design or Implementation)	Design
5. Date	5 September 2022

Part A. Integrating Programming Principles to Strengthen Social and Environmental Sustainability

QUESTION 1: How Does the Project Integrate the Programming Principles in Order to Strengthen Social and Environmental Sustainability?
Briefly describe in the space below how the project mainstreams the human rights-based approach
The Project will assist the government of Sri Lanka to overcome the disruption on mobility (due to fuel shortages brought on by the economic crisis), shape a national market for electric tuk-tuks and explore opportunities for creating local added value and employment. Electric mobility avoids the tailpipe emissions of internal combustion engine (ICE) vehicles which release atmospheric pollutants (NOx, HC, SO2, CO and PM10). The increased use of electric vehicles should contribute to improved air quality and decreased respiratory illnesses. Typically, negative effects associated with ICE vehicles are most pronounced in urban districts. As such, providing equitable and affordable access to clean, effective and secure transport systems is one of the main goals of the Government and by extension, the Project. The provision of high-quality transportation services and the adaptive management of electric vehicle systems to increase social security and accessibility is a key goal of the project.
Briefly describe in the space below how the project is likely to improve gender equality and women's empowerment
The Project seeks to collect gender-differentiated data to shape critical transport policies and to best meet the mobility needs of all individuals regardless of their gender-identity. Input from women's groups and women-led civil society organizations will be incorporated into the design and monitoring of the pilot project to maximize their impact in the acceleration phase. UNDP will ensure that women are proportionally represented in project execution and supervision bodies (PSC) and as beneficiaries of the pilot project
Briefly describe in the space below how the project mainstreams sustainability and resilience
The pilot project aims to demonstrate the technical and financial feasibility of e-tuk-tuks by converting 300 fuel tuk-tuks to e-tuk-tuks. The pilot project will precede an acceleration phase that will incorporate learnings from the pilot project to upscale the conversion of fuel tuk-tuks to electric tuk-tuks with integration of Renewable Energy. From the pilot phase Non-Banking Financial Institutions, Insurance organizations, will be engaged to develop the necessary financial models to scale up through private sector financing. Environmental sustainability is mainstreamed into the objectives and key outcomes of the Project. This pilot project envisions initiation of the reduction of fossil fuel consumption in Sri Lanka and the avoidance of typical environmental externalities of ICE vehicles (including local atmospheric pollutants) in tuk-tuks during the acceleration phase. As such, the Project will also assist Sri Lanka in delivering on the commitments made in its Nationally Determined Contribution (NDC). The transport and energy sectors are the country's

DocuSign Envelope ID: 7EDE1208-529E-4546-B794-AAAA0F56374B

largest GHG emitters. Additionally, the project will promote extended manufacture responsibility and proposes the creation of an e-waste recycling procedures to safeguard people (particularly technicians or mechanics) and the environment against harmful substances which may be emitted from vehicle batteries.
Briefly describe in the space below how the project strengthens accountability to stakeholders
Through the inclusive and participatory involvement of stakeholders from Ministry of transport, Non-Banking Financial Institutions, Supplier of conversion kits and three-wheeler associations, the project will identify and pilot the most relevant solution. The Project will also promote mechanism to raise concerns of those affected through various channels, such as the Ministry of Transport, DMT etc. Information on UNDP's Accountability Mechanism will be shared with all stakeholders during consultations and as part of relevant publications.

Part B. Identifying and Managing Social and Environmental Risks

QUESTION 2: What are the Potential Social and Environmental Risks? *Note: Complete SESP Attachment 1 before responding to Question 2.*	**QUESTION 3: What is the level of significance of the potential social and environmental risks?** *Note: Respond to Questions 4 and 5below before proceeding to Question 5*			**QUESTION 6: Describe the assessment and management measures for each risk rated Moderate, Substantial or High**
Risk Description (broken down by event, cause, impact)	***Impact and Likelihood (1-5)***	***Significance (Low, Moderate Substantial, High)***	***Comments (optional)***	***Description of assessment and management measures for risks rated as Moderate, Substantial or High***
There is a possibility that if this electric vehicle technology becomes popular, it could place greater energy demand on the national grid, thereby requiring more fossil fuel combustion and resulting in increased GHG emissions	I = 1 L = 2	**Low**	The project will promote e-vehicle charging stations powered by renewable energy. The project will assess the feasibility of solar powered charging stations and these studies will feed into the policy reforms	
There could be inequitable access to conversion kits, due to a strong socio-economic and gender bias, which could be disadvantageous to certain groups. This situation might be exacerbated by the introduction of e-tuk tuks.	I=3 L=1	**Low**	The project will engage beneficiaries with an emphasis on empowering women and marginalized groups	
Workers in vehicle repair facilities may be exposed to potential risks and vulnerabilities related to occupational health and safety.	I = 1 L = 2	**Low**	Conversion to electric tuk tuks involve installation and commissioning of electrical equipment and workers in such facilities are prone to occupational health and safety risks. The project will consider partners that	

DocuSign Envelope ID: 7EDE1208-529E-4546-B794-AAAA0F56374B

			conform to national labor laws and environmental standards	
There is a possibility that this project may result in the generation of hazardous waste	I=1 L=1	**Low**	Waste generated from the project will include batteries and other electronic waste such as circuit boards, etc. Batteries discarded from e-tuk-tuks can be reused for energy storage in charging stations with solar PV. Extended Manufacturer responsibility and collaboration with recognized e waste management companies will be required by suppliers of conversion kits for tuk-tuks in the project	
[add additional rows as needed]				

QUESTION 4: What is the overall project risk categorization?

Low Risk	X	
Moderate Risk	☐	
Substantial Risk	☐	
High Risk	☐	

QUESTION 5: Based on the identified risks and risk categorization, what requirements of the SES are triggered? (check all that apply)

Question only required for Moderate, Substantial and High Risk projects

Is assessment required? (check if "yes")	☐			***Status? (completed, planned)***
if yes, indicate overall type and status		☐	Targeted assessment(s)	
		☐	ESIA (Environmental and Social Impact Assessment)	
		☐	SESA (Strategic Environmental and Social Assessment)	
Are management plans required? (check if "yes)	☐			
If yes, indicate overall type		☐	Targeted management plans (e.g. Gender Action Plan, Emergency Response Plan, Waste Management Plan, others)	
		☐	ESMP (Environmental and Social Management Plan which may include range of targeted plans)	

			☐	ESMF (Environmental and Social Management Framework)	
	Based on identified risks, which Principles/Project-level Standards triggered?		**Comments (not required)**		
	Overarching Principle: Leave No One Behind				
	Human Rights	☐			
	Gender Equality and Women's Empowerment	☑			
	Accountability	☐			
	1. Biodiversity Conservation and Sustainable Natural Resource Management	☐			
	2. Climate Change and Disaster Risks	☐			
	3. Community Health, Safety and Security	☑			
	4. Cultural Heritage	☐			
	5. Displacement and Resettlement	☐			
	6. Indigenous Peoples	☐			
	7. Labor and Working Conditions	☑			
	8. Pollution Prevention and Resource Efficiency	☑

Final Sign Off

Final Screening at the design-stage is not complete until the following signatures are included

Signature	***Date***	***Description***
QA Assessor Sureka Perera DocuSigned by: Sureka Perera 14947AA81EC0427...	07-Sep-2022	UNDP staff member responsible for the project, typically a UNDP Programme Officer. Final signature confirms they have "checked" to ensure that the SESP is adequately conducted.
QA Approver Malin Herwig DocuSigned by: Malin Herwig C3A4E95E15BE4E7...	07-Sep-2022	UNDP senior manager, typically the UNDP Deputy Country Director (DCD), Country Director (CD), Deputy Resident Representative (DRR), or Resident Representative (RR). The QA Approver cannot also be the QA Assessor. Final signature confirms they have "cleared" the SESP prior to submittal to the PAC.
PAC Chair		UNDP chair of the PAC. In some cases PAC Chair may also be the QA Approver. Final signature confirms that the SESP was considered as part of the project appraisal and considered in recommendations of the PAC.

DocuSign Envelope ID: 7EDE1208-529E-4546-B794-AAAA0F56374B

SESP Attachment 1. Social and Environmental Risk Screening Checklist

Checklist Potential Social and Environmental Risks		
INSTRUCTIONS: The risk screening checklist will assist in answering Questions 2-6 of the Screening Template. Answers to the checklist questions help to (1) identify potential risks, (2) determine the overall risk categorization of the project, and (3) determine required level of assessment and management measures. Refer to the SES toolkit for further guidance on addressing screening questions.		
Overarching Principle: Leave No One Behind **Human Rights**		**Answer (Yes/No)**
P.1	Have local communities or individuals raised human rights concerns regarding the project (e.g. during the stakeholder engagement process, grievance processes, public statements)?	*No*
P.2	Is there a risk that duty-bearers (e.g. government agencies) do not have the capacity to meet their obligations in the project?	*No*
P.3	Is there a risk that rights-holders (e.g. project-affected persons) do not have the capacity to claim their rights?	*No*
Would the project potentially involve or lead to:		
P.4	adverse impacts on enjoyment of the human rights (civil, political, economic, social or cultural) of the affected population and particularly of marginalized groups?	No
P.5	inequitable or discriminatory impacts on affected populations, particularly people living in poverty or marginalized or excluded individuals or groups, including persons with disabilities?[1]	No
P.6	restrictions in availability, quality of and/or access to resources or basic services, in particular to marginalized individuals or groups, including persons with disabilities?	No
P.7	exacerbation of conflicts among and/or the risk of violence to project-affected communities and individuals?	No
Gender Equality and Women's Empowerment		
P.8	Have women's groups/leaders raised gender equality concerns regarding the project, (e.g. during the stakeholder engagement process, grievance processes, public statements)?	No
Would the project potentially involve or lead to:		
P.9	adverse impacts on gender equality and/or the situation of women and girls?	*No*
P.10	reproducing discriminations against women based on gender, especially regarding participation in design and implementation or access to opportunities and benefits?	Yes
P.11	limitations on women's ability to use, develop and protect natural resources, taking into account different roles and positions of women and men in accessing environmental goods and services? *For example, activities that could lead to natural resources degradation or depletion in communities who depend on these resources for their livelihoods and well being*	No
P.12	exacerbation of risks of gender-based violence? *For example, through the influx of workers to a community, changes in community and household power dynamics, increased exposure to unsafe public places and/or transport, etc*.	No

[1] Prohibited grounds of discrimination include race, ethnicity, sex, age, language, disability, sexual orientation, gender identity, religion, political or other opinion, national or social or geographical origin, property, birth or other status including as an indigenous person or as a member of a minority. References to "women and men" or similar is understood to include women and men, boys and girls, and other groups discriminated against based on their gender identities, such as transgender and transsexual people.

DocuSign Envelope ID: 7EDE1208-529E-4546-B794-AAAA0F56374B

Sustainability and Resilience: Screening questions regarding risks associated with sustainability and resilience are encompassed by the Standard-specific questions below		
Accountability		
Would the project potentially involve or lead to:		
P.13	exclusion of any potentially affected stakeholders, in particular marginalized groups and excluded individuals (including persons with disabilities), from fully participating in decisions that may affect them?	No
P.14	grievances or objections from potentially affected stakeholders?	No
P.15	risks of retaliation or reprisals against stakeholders who express concerns or grievances, or who seek to participate in or to obtain information on the project?	No
Project-Level Standards		
Standard 1: Biodiversity Conservation and Sustainable Natural Resource Management		
Would the project potentially involve or lead to:		
1.1	adverse impacts to habitats (e.g. modified, natural, and critical habitats) and/or ecosystems and ecosystem services? *For example, through habitat loss, conversion or degradation, fragmentation, hydrological changes*	No
1.2	activities within or adjacent to critical habitats and/or environmentally sensitive areas, including (but not limited to) legally protected areas (e.g. nature reserve, national park), areas proposed for protection, or recognized as such by authoritative sources and/or indigenous peoples or local communities?	No
1.3	changes to the use of lands and resources that may have adverse impacts on habitats, ecosystems, and/or livelihoods? (Note: if restrictions and/or limitations of access to lands would apply, refer to Standard 5)	No
1.4	risks to endangered species (e.g. reduction, encroachment on habitat)?	No
1.5	exacerbation of illegal wildlife trade?	No
1.6	introduction of invasive alien species?	No
1.7	adverse impacts on soils?	No
1.8	harvesting of natural forests, plantation development, or reforestation?	No
1.9	significant agricultural production?	No
1.10	animal husbandry or harvesting of fish populations or other aquatic species?	No
1.11	significant extraction, diversion or containment of surface or ground water? *For example, construction of dams, reservoirs, river basin developments, groundwater extraction*	No
1.12	handling or utilization of genetically modified organisms/living modified organisms?[2]	No
1.13	utilization of genetic resources? (e.g. collection and/or harvesting, commercial development)[3]	No
1.14	adverse transboundary or global environmental concerns?	No
Standard 2: Climate Change and Disaster Risks		
Would the project potentially involve or lead to:		

[2] See the Convention on Biological Diversity and its Cartagena Protocol on Biosafety.

[3] See the Convention on Biological Diversity and its Nagoya Protocol on access and benefit sharing from use of genetic resources.

DocuSign Envelope ID: 7EDE1208-529E-4546-B794-AAAA0F56374B

2.1	areas subject to hazards such as earthquakes, floods, landslides, severe winds, storm surges, tsunami or volcanic eruptions?	No
2.2	outputs and outcomes sensitive or vulnerable to potential impacts of climate change or disasters? *For example, through increased precipitation, drought, temperature, salinity, extreme events, earthquakes*	No
2.3	increases in vulnerability to climate change impacts or disaster risks now or in the future (also known as maladaptive or negative coping practices)? *For example, changes to land use planning may encourage further development of floodplains, potentially increasing the population's vulnerability to climate change, specifically flooding*	No
2.4	increases of greenhouse gas emissions, black carbon emissions or other drivers of climate change?	No
Standard 3: Community Health, Safety and Security		
Would the project potentially involve or lead to:		
3.1	construction and/or infrastructure development (e.g. roads, buildings, dams)? (Note: the GEF does not finance projects that would involve the construction or rehabilitation of large or complex dams)	No
3.2	air pollution, noise, vibration, traffic, injuries, physical hazards, poor surface water quality due to runoff, erosion, sanitation?	No
3.3	harm or losses due to failure of structural elements of the project (e.g. collapse of buildings or infrastructure)?	No
3.4	risks of water-borne or other vector-borne diseases (e.g. temporary breeding habitats), communicable and noncommunicable diseases, nutritional disorders, mental health?	No
3.5	transport, storage, and use and/or disposal of hazardous or dangerous materials (e.g. explosives, fuel and other chemicals during construction and operation)?	Yes
3.6	adverse impacts on ecosystems and ecosystem services relevant to communities' health (e.g. food, surface water purification, natural buffers from flooding)?	No
3.7	influx of project workers to project areas?	No
3.8	engagement of security personnel to protect facilities and property or to support project activities?	No
Standard 4: Cultural Heritage		
Would the project potentially involve or lead to:		
4.1	activities adjacent to or within a Cultural Heritage site?	No
4.2	significant excavations, demolitions, movement of earth, flooding or other environmental changes?	No
4.3	adverse impacts to sites, structures, or objects with historical, cultural, artistic, traditional or religious values or intangible forms of culture (e.g. knowledge, innovations, practices)? (Note: projects intended to protect and conserve Cultural Heritage may also have inadvertent adverse impacts)	No
4.4	alterations to landscapes and natural features with cultural significance?	No
4.5	utilization of tangible and/or intangible forms (e.g. practices, traditional knowledge) of Cultural Heritage for commercial or other purposes?	No
Standard 5: Displacement and Resettlement		
Would the project potentially involve or lead to:		
5.1	temporary or permanent and full or partial physical displacement (including people without legally recognizable claims to land)?	No

DocuSign Envelope ID: 7EDE1208-529E-4546-B794-AAAA0F56374B

5.2	economic displacement (e.g. loss of assets or access to resources due to land acquisition or access restrictions – even in the absence of physical relocation)?	No
5.3	risk of forced evictions?[4]	No
5.4	impacts on or changes to land tenure arrangements and/or community based property rights/customary rights to land, territories and/or resources?	No
Standard 6: Indigenous Peoples		
Would the project potentially involve or lead to:		
6.1	areas where indigenous peoples are present (including project area of influence)?	No
6.2	activities located on lands and territories claimed by indigenous peoples?	No
6.3	impacts (positive or negative) to the human rights, lands, natural resources, territories, and traditional livelihoods of indigenous peoples (regardless of whether indigenous peoples possess the legal titles to such areas, whether the project is located within or outside of the lands and territories inhabited by the affected peoples, or whether the indigenous peoples are recognized as indigenous peoples by the country in question)? *If the answer to screening question 6.3 is "yes", then the potential risk impacts are considered significant and the project would be categorized as either Substantial Risk or High Risk*	No
6.4	the absence of culturally appropriate consultations carried out with the objective of achieving FPIC on matters that may affect the rights and interests, lands, resources, territories and traditional livelihoods of the indigenous peoples concerned?	No
6.5	the utilization and/or commercial development of natural resources on lands and territories claimed by indigenous peoples?	No
6.6	forced eviction or the whole or partial physical or economic displacement of indigenous peoples, including through access restrictions to lands, territories, and resources? *Consider, and where appropriate ensure, consistency with the answers under Standard 5 above*	No
6.7	adverse impacts on the development priorities of indigenous peoples as defined by them?	No
6.8	risks to the physical and cultural survival of indigenous peoples?	No
6.9	impacts on the Cultural Heritage of indigenous peoples, including through the commercialization or use of their traditional knowledge and practices? *Consider, and where appropriate ensure, consistency with the answers under Standard 4 above.*	No
Standard 7: Labour and Working Conditions		
Would the project potentially involve or lead to: (note: applies to project and contractor workers)		
7.1	working conditions that do not meet national labour laws and international commitments?	No
7.2	working conditions that may deny freedom of association and collective bargaining?	No
7.3	use of child labour?	No
7.4	use of forced labour?	No
7.5	discriminatory working conditions and/or lack of equal opportunity?	No
7.6	occupational health and safety risks due to physical, chemical, biological and psychosocial hazards (including violence and harassment) throughout the project life-cycle?	Yes

[4] Forced eviction is defined here as the permanent or temporary removal against their will of individuals, families or communities from the homes and/or land which they occupy, without the provision of, and access to, appropriate forms of legal or other protection. Forced evictions constitute gross violations of a range of internationally recognized human rights.

DocuSign Envelope ID: 7EDE1208-529E-4546-B794-AAAA0F56374B

Standard 8: Pollution Prevention and Resource Efficiency		
Would the project potentially involve or lead to:		
8.1	the release of pollutants to the environment due to routine or non-routine circumstances with the potential for adverse local, regional, and/or transboundary impacts?	Yes
8.2	the generation of waste (both hazardous and non-hazardous)?	Yes
8.3	the manufacture, trade, release, and/or use of hazardous materials and/or chemicals?	Yes
8.4	the use of chemicals or materials subject to international bans or phase-outs? *For example, DDT, PCBs and other chemicals listed in international conventions such as the Montreal Protocol, Minamata Convention, Basel Convention, Rotterdam Convention, Stockholm Convention*	No
8.5	the application of pesticides that may have a negative effect on the environment or human health?	No
8.6	significant consumption of raw materials, energy, and/or water?	No
